Section I INTRODUCTION

The Accountability Manual is designed as a technical resource to explain the public education accountability system used in South Carolina. The accountability system is to promote high levels of student achievement through strong and effective schools.

This manual addresses the ratings and reporting processes for the November 2001 report card and provides the initial specifications for the November 2002 report card.

System Preamble and Purposes

The Education Accountability Act of 1998 provides the foundation for the South Carolina Accountability System. The enabling legislation included the following preamble and purposes:

§59-18-100. The General Assembly finds that South Carolinians have a commitment to public education and a conviction that high expectations for all students are vital components for improving academic achievement. It is the purpose of the General Assembly in this chapter to establish a performance based accountability system for public education which focuses on improving teaching and learning so that students are equipped with a strong academic foundation. Accountability, as defined by this chapter, means acceptance of the responsibility for improving student performance and taking actions to improve classroom practice and school performance by the Governor, the General Assembly, the State Department of Education, colleges and universities, local school boards, administrators, teachers, parents, students and the community.

§59-18-100. The system is to:

1. Use academic achievement standards to push schools and students toward higher performance by aligning the state assessment to those standards and linking policies and criteria for performance standards, accreditation, reporting, school rewards, and targeted assistance;
2. Provide an annual report card with a performance indicator system that is logical, reasonable, fair, challenging, and technically defensible which furnishes clear and specific information about school and district academic performance and other performance to parents and the public;
3. Require all districts to establish local accountability systems to stimulate quality teaching and learning practices and target assistance to low performing schools;
4. Provide resources to strengthen the process of teaching and learning in the classroom to improve student performance and reduce gaps in performance;
5. Support professional development as integral to improvement and to the actual work of teachers and school staff; and
6. Expand the ability to evaluate the system and to conduct in-depth studies on implementation, efficiency and the effectiveness of academic improvement efforts.

Components of the System

Ratings Each school will receive three ratings, one for absolute performance level, one for improvement rate, and one (the School Grade) combining the performance and improvement ratings:

- (1) Absolute performance means the rating a school will receive based on the percentage of students meeting standards on the state's standards-based assessment;
- (2) Improvement performance means the rating a school will receive based on available longitudinally matched student data comparing current performance to the previous year's for the purpose of determining student academic growth; and
- (3) The School Grade, which simultaneously summarizes a school's absolute performance rating and improvement rating and provides an evaluative statement regarding both its current level of achievement at the end of the school year and the progress observed over the year.

The five ratings categories are Excellent, Good, Average, Below Average and Unsatisfactory.

Standards-Based Assessments The standards-based assessment system used in the development of school ratings includes Grades 3-8 Palmetto Achievement Challenge Tests in mathematics, reading/English language arts, science and social studies; the revised exit examination and end-of-course assessments for selected high school courses.

The availability of assessments is dependent upon the development schedule approved by the State Board of Education and shown below:

Timeline for Implementation of New Assessments
Approved by State Board of Education, January 10, 2001

Test	1998-1999	1999-2000	2000-2001	2001-2002	2002-2003	2003-2004	2004-2005	2005-2006	2006-2007
Readiness 1, 2				4					
PACT 1, 2				Optional					
PACT 3-8 Math, ELA	4								
PACT 3-8 Science				4					
PACT 3-8 Social Studies					4				
PACT Exit Exam Math, ELA						4			
PACT Exit Exam Science						4			
PACT Exit Exam Social Studies						4			
End-of-Course Math					4				
End-of-Course ELA						4			
End-of-Course Science								4	
End-of-Course Social Studies					4				
Alternate Assess.			4						

For the November 2001 and 2002 report card, the following assessments are used in the calculation of the school and district ratings:

- ❑ Schools enrolling students in grades K-2: Criteria other than assessment data (e. g., student attendance, pupil-teacher ratios, parent involvement, external accreditation, and early-childhood professional development) are used for the rating;
- ❑ Schools enrolling students in grades 3-8: 2000 and 2001 PACT data for 2001 report card; 2001 and 2002 PACT data for 2002;
- ❑ Schools enrolling students in grades 9-12: Exit Examination results and percentages of students eligible for LIFE scholarships (based on SAT/ACT test results and grade point average);
- ❑ Career and Technology Centers: Percentages of students mastering core competencies or certification requirements in center courses, along with graduation and placement rates and enrollments;
- ❑ Special schools: Criteria appropriate for each school's mission;
- ❑ Districts: Assessments used for calculating the ratings for schools enrolling students in grades 3-8 and high schools are used to calculate the district ratings.

School Profile Information

Indicators of School or District Performance provide information about the educational environment over which the school community has influence and precede performance. "School or District Facts" provide other information about the staff, students, or school.

Annual analyses of these and other data elements are to be conducted to determine the relationship to student academic performance.

Palmetto Gold and Silver Awards The Palmetto Gold and Silver Awards Program is designed "to recognize and reward schools for academic achievement. Awards will be established for schools attaining high levels of absolute performance and for schools attaining high rates of improvement. The awards program must base improved performance on longitudinally matched student data and may include such criteria as:

- (1) Student achievement;
- (2) Teacher attendance;
- (3) Student dropout rates; and
- (4) any other factors promoting or maintaining high levels of achievement and performance." (§59-18-1100)

The Education Oversight Committee is to establish the criteria for the school reward. The award criteria have been established for schools enrolling students in grades 3-8, and are currently under development for high schools. (The award criteria are published on the EOC web site, www.state.sc.us/eoc.) Eligibility for a reward for high levels of performance is built upon student performance that exceeds expected levels of improvement. Special schools for the academically talented are not eligible to receive an award unless they have demonstrated improvement and high absolute achievement for three years immediately preceding the award. The State Board of Education shall promulgate regulations to insure that reward funds are used to improve or maintain exceptional performance.

Flexibility Status

(1) For schools with exemplary performance: A school is given the flexibility of receiving exemptions from regulations and statutory provisions governing the defined program provided that, during a three-year period, the following criteria are satisfied:

- ❑ the school has twice been a recipient of a Palmetto Gold or Silver Award, pursuant to Section 59-18-1100;
- ❑ the school has met annual improvement standards for subgroups of students in reading and mathematics; and
- ❑ the school has exhibited no recurring accreditation deficiencies.

Schools receiving flexibility status are released from those regulations and statutory provisions referred to above including, but not limited to, regulations and statutory provisions on class scheduling, class structure, and staffing. The State Board of Education in consultation with the Education Oversight Committee must promulgate regulations and develop guidelines for providing this flexibility by December 1, 2001.

To continue to receive flexibility pursuant to this section, a school must annually exhibit school improvement at or above the state average as computed in the school recognition program pursuant to Section 59-18-1100 and must meet the gains required for subgroups of students in reading and mathematics. A school which does not requalify for flexibility status due to extenuating circumstances may apply to the State Board of Education for an extension of this status for one year.

In the event that a school is removed from flexibility status, the school is not subject to regulations and statutory provisions exempted under this section until the beginning of the school year following notification of the change in status by the State Department of Education. Subsequent monitoring by the State Department of Education in a school that is removed from flexibility status shall not include a review of program records exempted under this section for the period that the school has received flexibility status or for the school year during which the school was notified of its removal from flexibility status.

(2) For schools designated as unsatisfactory: A school designated as unsatisfactory while in such status is given the flexibility of receiving exemptions from those regulations and statutory provisions governing the defined program or other State Board of Education regulations, dealing with the core academic areas as outlined in Section 59-18-120, provided that the review team recommends such flexibility to the State Board of Education.

(3) For other schools: Other schools may receive flexibility when their strategic plan explains why such exemptions are expected to improve the academic performance of the students and the plan meets the approval by the State Board of Education. To continue to receive flexibility pursuant to this section, a school must annually exhibit overall school improvement as outlined in its revised plan and must meet the gains set for subgroups of students in reading and mathematics. A school which does not requalify for flexibility status due to extenuating circumstances may apply to the State Board of Education for an extension of this status for one year according to the provisions of Section 59-18-1110(D).

Key Dates

Release dates for the ratings, recognition and reports are shown below. A complete schedule of events affecting the accountability system is provided in Section X.

- ❑ March, 2001 Annual Exit Examination administration
- ❑ April/May 2001 Annual PACT administration
- ❑ November 1, 2001 SDE release of report cards to schools and districts
- ❑ November 15, 2001 Release of report cards to parents and general public,
including newspaper publication

Definitions of Critical Terms

- (1) 'Oversight Committee' means the Education Oversight Committee established in Section 59-6-10.
- (2) 'Standards-based assessment' means an assessment where an individual's performance is compared to specific performance standards and not to the performance of other students.
- (3) 'Disaggregated data' means data broken out for specific groups within the total student population, such as by race, gender, and family income level.
- (4) 'Longitudinally matched student data' means examining the performance of a single student or a group of students by considering their test scores over time.
- (5) 'Norm-referenced assessment' means assessments designed to compare student performance to a nationally representative sample of similar students known as the norm group.
- (6) 'Academic achievement standards' means statements of expectations for student learning.
- (7) 'Department' means the State Department of Education.
- (8) 'Absolute performance' means the rating a school will receive based on the percentage of students meeting standard on the state's standards-based assessment.
- (9) 'Improvement performance' means the rating a school will receive based on longitudinally matched student data comparing current performance to the previous year's for the purpose of determining student academic growth.
- (10) 'Objective and reliable statewide assessment' means assessments which yield consistent results and which measure the cognitive knowledge and skills specified in the state-approved academic standards and does not include questions relative to personal opinions, feelings, or attitudes and is not biased with regard to race, gender, or socioeconomic status. It is not intended that the assessments be limited to true/false or multiple choice questions.
- (11) 'Division of Accountability' means the special unit within the Education Oversight Committee established in Section 59-6-100.
- (12) 'Ratings Year' means the academic year of the state test data which are incorporated into the performance level rating.

Manual Organization

The organization of this manual is structured to provide state and local education agencies with details regarding the implementation of the accountability system and to enable those agencies to plan for meaningful and accurate data collections, to work with their professional colleagues and public toward understanding of the elements reported; and to ensure that the system improves continuously.

In subsequent editions of this manual, the Education Oversight Committee intends to link this information to the criteria for school accreditation, recognitions of strong performance, historical performance data and analyses of the effectiveness of the system.

Section II 2001 ACCOUNTABILITY SYSTEM

Identification of School/Program Units for Report Cards

Report cards are to be issued for each school or district to include the following:

- ❑ Each school or district organizational unit assigned a Basic Educational Data System (BEDS) code by the State Department of Education unless requested by the district;
- ❑ Each special school operating under the auspices of the State of South Carolina including those operated by the Department of Juvenile Justice; the Felton Laboratory School at South Carolina State University; the Governor's School for the Arts and Humanities; the Governor's School for Science and Mathematics; the John de la Howe School; the Palmetto Unified School District; the SC School for the Deaf and the Blind; the Wil Lou Gray Opportunity School; and the MacFeat Lab School at Winthrop University;
- ❑ Multiple report cards will be issued only if there are sufficient numbers of students in each group to meet the criteria for reporting disaggregated data (see page 34). When multiple report cards are issued for a school, data elements that are specific to the different grade levels will be different. All other data elements will be identical. In a school with grades 7-12, for example, the report card for grades 7-8 will include the number of students enrolled in courses for high school credit, while the report card for grades 9-12 will include the number of students successfully completing AP/IB courses. Other data, such as attendance rates, will be identical on the two report cards. Each report card will contain unique measures of absolute performance and improvement performance to the extent that the methods that are adopted for those ratings depend on data that are routinely collected by grade level. If data that are not routinely collected by grade level are used to construct or to interpret the ratings, then identical information for these data will appear on all report cards issued for the school.

Superintendents may request that separate report cards be issued for special program units that meet the following criteria and that would not otherwise receive a separate report card:

1. The program unit is a multi-grade unit directed toward a purpose (either curriculum, special population or distinct methodology) housed on the campus of a BEDS-designated school;
2. The program unit has an administrative leadership structure separate from the school which houses the program;
3. The program unit is acknowledged generally by parents and the public to be separate and distinct from the school which houses the program;
4. There is no overlap between the grades served by the program unit, any other program unit housed at the school, and the host school.

Requests for separate report cards must be made to the State Superintendent of Education by the first day of the school year preceding the report card year. The State Superintendent will approve or deny such requests.

- ❑ A typical elementary school is defined as containing grades K-5; a typical middle school, grades 6-8; a typical high school, grades 9-12. Any school that includes a grade on either side of the typical pattern will be viewed as part of that organizational pattern. For example, if a school includes grades K-6, it will be considered elementary. If a school includes grades 5-9, it would be considered a middle school. If a school includes

two or more grades on either side of the typical pattern (e.g., 4-8), two report cards would be produced. Due to the differences in data included in ratings for high school grades, any school that contains grade 10 and crosses organizational patterns would require at least two report cards.

Criteria for School and District Ratings

District rating approaches will parallel those used at the school level. Depending on the method selected, district ratings will be calculated by aggregating student level data. Following their third administration, student assessment results from the PACT-Alternate assessment will be included in the calculation of the district but not the school ratings.

Students included in the ratings

Absolute Performance Ratings for Schools: Any student who is in membership in a school at the time of the 45-day enrollment count will be included in the absolute performance rating for a school for the Ratings Year if he or she was enrolled at the time of listing. (Therefore, students in membership but temporarily assigned to an alternative program, are counted in the home school.) Students who have taken at least one complete subject area test (e.g., mathematics) will be included. For the absolute performance rating, repeating students will be included.

Absolute Performance Ratings for Districts: Any student who is enrolled in a district at the time of the 45-day enrollment count will be included in the absolute performance rating for a district for the Ratings Year, even if he or she has changed schools within the district. All other conditions stipulated for schools will apply for district ratings.

Mobile students are of particular importance to the accountability system. The EOC shall conduct studies to determine the impact of student mobility on the accountability system.

Improvement Ratings for Grades 3-8: Any student will be included if he or she is enrolled in a school (or district) on the 45th day, can be matched to the previous year, and has PACT test scores for both years, even if the student attended a different school during the previous year. The percentage of matched students will be reported on the Report Card, and will be calculated by dividing the number of students included in the improvement rating by the number of students enrolled on the 45th day.

Student performance categories: The State Board of Education through the State Department of Education has been mandated to adopt or develop standards-based assessments in mathematics, English language arts, science, and social studies for grades 3-8. In addition, an exit examination to be first administered in grade 10 and end-of-course tests for gateway courses comprise this system. The time line for implementation was adopted by the State Board of Education in January 2001.

Each of these tests is to be reviewed and approved by the Education Oversight Committee. To date, the mathematics and English language arts tests for grades 3-8 (Palmetto Achievement Challenge Tests or PACT) have been reviewed and approved for use. The science assessments will be reviewed in Fall 2001.

Baseline administration of PACT was conducted in April 1999. Based on data collected and a "book-marking" procedure, performance level standards were established. Four performance levels – below basic, basic, proficient, and advanced - indicate how an individual student is performing based on the curriculum standards assessed by the PACT.

BELOW BASIC

A student who performs at the BELOW BASIC level on the PACT has not met minimum expectations for student performance based on the curriculum standards approved by the State Board of Education. The student is not prepared for work at the next grade and must have an academic assistance plan; local district board policy will determine the student's promotion to the next grade level.

BASIC

Performance at the BASIC level means a student has passed the test. A student who performs at the BASIC level at the PACT has met minimum expectations for student performance based on the curriculum standards approved by the State Board of Education. The student is minimally prepared for work at the next grade.

PROFICIENT

A student who performs at the PROFICIENT level on the PACT has met expectations for student performance based on the curriculum standards approved by the State Board of Education. The student is well prepared for work at the next grade. The PROFICIENT level represents the long-term goal for student performance in South Carolina.

ADVANCED

A student who performs at the ADVANCED level on the PACT has exceeded expectations for student performance based on the curriculum standards approved by the State Board of Education. The student is very well prepared for work at the next grade.

Ratings For Schools Only Enrolling Students In Grades Two Or Below

During the 1999-2000 school year, twenty-seven schools served students only enrolled in grade two or below. These schools pose a complex challenge to the accountability system. Achievement testing is neither required nor recommended. The education of young children involves assisting them with developmental tasks as well as the acquisition of content that is the focus of upper grades. The model for accountability recommended below focuses not on test behaviors, but on other correlates of school success. The model focuses on teacher behaviors, classroom and school practices, and on parental and child behaviors which research indicates are related to school success.

Ratings Criteria

- 1) Student Attendance: Student attendance is to be calculated in the same manner as for other SC schools [See the Accountability Manual for formula];
- 2) Pupil-Teacher ratios: Pupil-teacher ratio is to be calculated by dividing the number of students enrolled in the school on the 45th day of school, divided by the total number of teachers in the school (excluding counselors, librarians, administrative personnel, specialists and teachers of the arts, physical education or special education)
- 3) Parent Involvement: Involvement is to be calculated by dividing the number of students in the schools whose parents/guardians attend at least one individual parent conference (unduplicated count) during the school year by the 135th day ADM;
- 4) External Accreditation: Accreditation that is early childhood specific is to be determined by application and/or receipt of accreditation. The scale ranges from State Department of Education Accreditation through early childhood specific accreditation by the Southern

Association of Colleges and Schools to the accreditation by the American Montessori Society or the National Association for the Education of Young Children;

- 5) Professional Development: The professional development time devoted exclusively to knowledge and skills working with young children (less than eight years) is to be calculated;

and for 2004 and beyond

- 6) Professional Preparation: The proportion of teachers with degrees and certification in early childhood education; and
7) Utilization of an environmental measure for program improvement (e.g., Early Childhood Environmental Rating Scale)

Criterion	Points Assigned				
	5	4	3	2	1
Student Attendance	98% or greater	96-97.99%	94-95.99%	92-93.99%	Less than 92%
Pupil-Teacher Ratio	21 or less	22-25	26-30	31-32	Greater than 32
Parent Involvement	90% or more	75-89 %	60-74%	30-59%	29% or less
External Accreditation	NAEYC or Montessori	SDE and SACS-early childhood	SDE	Conducting self-study	Not pursuing accreditation
Professional Development	More than 1.5 days	1 to 1.5 days	1 day	.5 to .9 day	Less than .5 day

Absolute Performance Rating Values

Year	Excellent	Good	Average	Below Average	Unsatisfactory
2001	3.4 and above	3.0-3.3	2.6-2.9	2.2-2.5	Below 2.2
2002	3.4 and above	3.0-3.3	2.6-2.9	2.2-2.5	Below 2.2
2003	3.4 and above	3.0-3.3	2.6-2.9	2.2-2.5	Below 2.2
2004	3.5 and above	3.1-3.4	2.7-3.0	2.3-2.6	Below 2.3
2005	3.6 and above	3.2-3.5	2.8-3.1	2.4-2.7	Below 2.4
2006	3.7 and above	3.3-3.6	2.9-3.2	2.5-2.8	Below 2.5
2007	3.8 and above	3.4-3.7	3.0-3.3	2.6-2.9	Below 2.6
2008	3.9 and above	3.5-3.8	3.1-3.4	2.7-3.0	Below 2.7
2009-2010	4.0 and above	3.6-3.9	3.2-3.5	2.8-3.1	Below 2.8

Improvement Rating Values

NOTE: Longitudinal student data are not available.

For schools enrolling only students in grades 2 or below, the improvement rating shall be calculated based upon the change in the Absolute Performance Rating Index from year to year. The index and rating are shown on the next page:

Improvement Rating Values for 2001, 2002 and 2003
(Values are to be re-examined after initial experiences)

Rating	Improvement Index
Excellent	0.4 or greater
Good	0.3
Average	0.1-0.2
Below Average	0.0
Unsatisfactory	-0.1 or less

Schools with Absolute Ratings of Excellent in Two Subsequent Years

If the school is rated Excellent for Absolute Achievement for both years, the school will receive an Improvement Rating of "Good." If the school's Weighted Improvement Index is a positive number (e.g., greater than zero), the school's Improvement Rating will be elevated to Excellent.

Ratings For Schools Enrolling Students In Grades Three Through Eight

Schools enrolling students in grades three through eight shall receive ratings in accordance with the grade organization patterns and rules established in the Accountability Manual (adopted by the EOC on May 18, 2000).

Ratings Criteria

Two ratings are to be assigned to schools and districts. The ratings for absolute performance and improvement performance are defined in Article 1 of the Education Accountability Act of 1998, §59-18-120:

Absolute performance means the rating a school will receive based on the percentage of students meeting standard on the state's standards based assessment;

Improvement performance means the rating a school will receive based on longitudinally matched student data comparing current performance to their previous year's for the purpose of determining student academic growth.

Absolute Performance Rating

The absolute performance level is calculated on the basis of a weighted model in which student performance weights are assigned. A weighted model is one in which the percentage of students scoring in each category is weighted to represent the importance of scoring in that category, as follows: Advanced, 5 points; Proficient, 4 points; Basic, 3 points; Below Basic 2, 2 points; and Below Basic 1, 1 point. (The Below Basic performance category has been split into two subcategories (Below Basic 2 and Below Basic 1) so that improvement among low scoring students is recognized.) The determination for the break point for Below Basic 2 and Below Basic 1 is two standard errors of measurement below the Basic cut point. The following table provides the score ranges and cut points for each score category for each grade and subject area. Please note that score ranges and cut points for the four performance levels were determined by the Department of Education. Note: Below Basic "2" corresponds to a division in the Below Basic category to be used by the EOC in the calculation of ratings.

**PACT ENGLISH LANGUAGE ARTS
TEST RANGES AND CUT-OFFS
(Using 2000 Cut Points and Ranges established by SDE)**

Grade	Range	Below Basic 2	Basic	Proficient	Advanced
8	742-848	792	797	813	827
7	639-751	691	696	712	729
6	541-652	590	596	612	629
5	445-548	488	495	511	531
4	345-445	389	395	410	430
3	253-352	290	296	310	331

**PACT MATHEMATICS
TEST RANGES AND CUT-OFFS
(Using 2000 Cut Points and Ranges established by SDE)**

Grade	Range	Below Basic 2	Basic	Proficient	Advanced
8	754-853	793	800	818	827
7	653-756	691	700	717	727
6	555-656	591	599	617	628
5	458-552	490	499	517	528
4	351-452	389	399	416	427
3	260-344	290	298	316	326

Sample Calculation of the Absolute Performance Level Index:

For a school with	10 % scoring Advanced	$5 \times .10 = .50 +$
	15% scoring Proficient	$4 \times .15 = .60 +$
	30% scoring Basic	$3 \times .30 = .90 +$
	30% scoring Below Basic 2	$2 \times .30 = .60 +$
	13% scoring Below Basic 1	$1 \times .13 = .13 +$
	2% eligible, not tested	$0 \times .02 = .00$
	TOTAL	2.73 - Round to the nearest tenth 2.70

The EOC has recommended that schools with large percentages of students scoring Below Basic be dropped one rating category. For example, if in 2001 a school had an index of 3.0 but 50 percent of students scored below basic the school's rating would be lowered from Good to Average. (See table on the next page.) The EOC is committed to a phase-in of the criteria as shown in the table. Rigor would increase annually until the ratings definitions reached the 2010 Target.

Grades 3-8
Absolute Performance Rating Criteria
Index and Maximum Percentage Allowed Below Basic

Year	Excellent	Good	Average	Below Average	Unsatisfactory
	Index/ Maximum % Below Basic	Index/ Maximum % Below Basic	Index/ Maximum % Below Basic	Index/ Maximum % Below Basic	Index/ Maximum % Below Basic
2001	3.4 and above/20	3.0-3.3/40	2.6-2.9/60	2.2-2.5/80	Below 2.2/NA
2002	3.4 and above/20	3.0-3.3/40	2.6-2.9/60	2.2-2.5/80	Below 2.2/NA
2003	3.4 and above/20	3.0-3.3/40	2.6-2.9/60	2.2-2.5/80	Below 2.2/NA
2004	3.5 and above/20	3.1-3.4/40	2.7-3.0/60	2.3-2.6/80	Below 2.3/NA
2005	3.6 and above/20	3.2-3.5/40	2.8-3.1/60	2.4-2.7/8-	Below 2.4/NA
2006	3.7 and above/15	3.3-3.6/30	2.9-3.2/45	2.5-2.8/60	Below 2.5/NA
2007	3.8 and above/15	3.4-3.7/30	3.0-3.3/45	2.6-2.9/60	Below 2.6/NA
2008	3.9 and above/15	3.5-3.8/30	3.1-3.4/45	2.7-3.0/60	Below 2.7/NA
2009-2010	4.0 and above/10	3.6-3.9/20	3.2-3.5/30	2.8-3.1/40	Below 2.8/NA

Students who should be tested but are not tested will be assigned a weight of 0 in the accountability ratings.

The inclusion of students with disabilities in the Absolute Performance Rating is to be accomplished in the following manner:

1. Students with accommodated administrations will be treated identically to students taking PACT in its standard form in absolute school and district ratings;
2. Students taking alternate assessments will be reported only at the district level beginning in 2004;
3. Students taking modified assessments, including "off-level tests", will be factored into the absolute rating according to the test score earned;
4. The percentage of students taking PACT assessments on grade level and "off-grade level" is to be published on the school report card and shown in comparison to the percentages statewide.

The inclusion of students with Limited English Proficiency: Students with Limited English Proficiency are only tested in accordance with federal guidelines; therefore, students excused from testing by federal rules are excluded from the number of students eligible for testing.

Improvement Rating

The Education Accountability Act provides that the EOC may consider the performance of subgroups of students in the school in the improvement ratings. Improvement ratings are based on longitudinally matched student data.

Calculation of the Improvement Index

Step 1: For the students who qualify for inclusion (e.g., those students for whom both current and prior year test scores are available and who were enrolled in the school by the 45th day of the current school year), a weighted index for the current year and for the prior year will be computed. The weighted indices for each year will be calculated in the same way as the Absolute Performance Index.

Step 2: Subtract the weighted index from the prior year from the weighted index for the current year. This difference is the Weighted Improvement Index. For example, if the current year weighted index is 3.5 and the prior year's weighted index was 3.2, the Weighted Improvement Index is 0.3. An important point to note is that the Absolute Performance Index calculated to determine the Absolute Performance Rating for a given year and the weighted index for calculating the Weighted Improvement Index for the same year may differ because of differences in the 45-day enrollments and the loss of student data which could not be longitudinally matched in the calculation of the Weighted Improvement Index.

Step 3: Compare the school's Weighted Improvement Index to those in the table below to determine the school's Improvement Rating. For example, the school achieving a Weighted Improvement Index = 0.3 would receive an Improvement Rating of "Good."

Improvement Performance Rating Criteria
Index and Achievement Gap Reduction Incentive
Values for 2001, 2002, and 2003
(Values to be reexamined after initial experiences)

Rating	Improvement Index
Excellent	0.4 or greater
Good	0.3
Average	0.1-0.2
Below Average	0.0
Unsatisfactory	-0.1 or less

Step 4: A school's Improvement Rating may be increased by one level if the improvement in performance of historically underachieving students meets or exceeds a criterion. Historically underachieving groups consist of African-American, Hispanic and Native American students, those eligible for the free or reduced price federal lunch program and students with non-speech disabilities. The school's eligibility for the increased Improvement Rating is determined as follows:

Step 4A: Calculate the Weighted Improvement Index for the group of eligible students. The group must consist of 30 or more students to be considered for analysis.

Step 4B: Compare the Weighted Improvement Index for the group to the State Two-Year Average Weighted Improvement Index for all students in the state. The State Two-Year Average Weighted Improvement Index is the average of the Weighted Improvement Indices for all students for the current and prior years. If the Weighted Improvement Index for the historically underachieving group in the school exceeds the State Two-Year Average Weighted Improvement Index by at least one standard deviation, the school's Improvement Rating may be increased by one level. If the school is rated Excellent for Improvement on the basis of all students, the performance for groups should also be calculated and reported even though the school's rating cannot be increased.

Schools Having Grade 3 as the Highest Grade Enrolled

Longitudinal analyses of scores from students enrolled in schools having grade organizations such as K-3, 2-3, 1-3, etc., cannot be performed because these schools will have PACT data for grade 3 only. There is no PACT test in grade 2 administered on a statewide basis to serve as a pretest for the longitudinally matched data. The improvement rating for schools such as these shall be calculated based on the change in Absolute Performance from year to year.

Schools with Absolute Ratings of Excellent in Two Subsequent Years

If a school is rated Excellent for Absolute Achievement for both years, the school will receive an Improvement Rating of "Good." If the school's Weighted Improvement Index for all students is a positive number (e.g., greater than zero), the school's Improvement Rating will be elevated to Excellent. The performance improvement of the groups will also be reported for these schools.

Ratings For High Schools

Ratings Criteria

The performance and improvement ratings for high schools will be calculated on a weighted model using the following criteria: longitudinal Exit Examination performance, the percentage of students eligible for LIFE scholarships to a four-year institution and Exit Examination performance of tenth graders (first attempt). In 2003 and thereafter, the graduation rate will be added.

- 1) Longitudinal Exit Examination Performance: This factor gauges the percentage of tenth grade students who pass the exit exam by the spring graduation two years later. Students transferring to other schools should be deleted from the calculation; however students dropping out are included;
- 2) Tenth Grade First attempt Exit Examination Performance: The percentage of 10th grade students in the current school year who meet the standards on all three Exit Examination subtests (Reading, Writing, Mathematics);
- 3) Eligibility for LIFE Scholarships: The percentage of students in the spring graduating class who qualify for LIFE Scholarships (i.e., meeting both the grade point average and SAT/ACT criteria established by the State);
- 4) In 2003 and thereafter, Graduation Rate: Calculation of the graduation rate is defined in the EOC Accountability Manual adopted in May 2000.

The following points distribution is applied to each of the criteria for the calculation of a school index (the percentage weighting for each criterion is applied to the calculation of the index):

Criterion	Points Assigned				
	5	4	3	2	1
Longitudinal Exit Exam Passage Rate (30%)	100 %	97.5-99.9 %	90.7-97.4 %	87.3-90.6 %	Below 87.3 %
10 th Grade First Attempt Exit Exam Passage Rate (30%)	81.3 % or more	70.8-81.2 %	49.8-70.7 %	39.3-49.7 %	Below 39.3%
Eligibility for LIFE Scholarships (40%)	38.6 % or more	28.7-38.5 %	8.9-28.6 %	4.0-8.8 %	Below 4.0 %
Graduation Rate	To be applied in 2003 and beyond				

Sample Calculation for 2001 and 2002:

Criterion	Points	Weighting Factor	Weighted Score
Longitudinal Exit Exam	4	X 3 (30%)	12
Passage Rate			
10th Grade 1 st Attempt Exit	4	X 3 (30%)	12
Exam Passage Rate			
Eligibility for LIFE	3	X 4 (40%)	12
Scholarship			
Total		10 (100%)	36

Total 36 divided by 10 weights = 3.6 = Absolute Performance Index.

Absolute Performance Rating

Year	Excellent	Good	Average	Below Average	Unsatisfactory
2001	3.4 and above	3.0-3.3	2.6-2.9	2.2-2.5	Below 2.2
2002	3.4 and above	3.0-3.3	2.6-2.9	2.2-2.5	Below 2.2
2003	3.4 and above	3.0-3.3	2.6-2.9	2.2-2.5	Below 2.2
2004	3.5 and above	3.1-3.4	2.7-3.0	2.3-2.6	Below 2.3
2005	3.6 and above	3.2-3.5	2.8-3.1	2.4-2.7	Below 2.4
2006	3.7 and above	3.3-3.6	2.9-3.2	2.5-2.8	Below 2.5
2007	3.8 and above	3.4-3.7	3.0-3.3	2.6-2.9	Below 2.6
2008	3.9 and above	3.5-3.8	3.1-3.4	2.7-3.0	Below 2.7
2009-2010	4.0 and above	3.6-3.9	3.2-3.5	2.8-3.1	Below 2.8

Students who should be tested but are not tested will be assigned a weight of 0 in the accountability ratings.

The inclusion of students with disabilities in the Absolute Performance Rating is to be accomplished in the following manner:

1. Students with accommodated administrations will be treated identically to students taking the Exit Exam in its standard form in absolute school and district ratings;
2. Students taking modified assessments will be factored into the absolute rating according to the test score earned;
3. Data from tenth grade students with disabilities who do not meet the criteria stated in the regulations for participation in the administration of the Exit Examination will not be used in the calculation of the performance rating.

The inclusion of students with Limited English Proficiency: Students with Limited English Proficiency are only tested in accordance with federal guidelines; therefore, students excused from testing by federal rules are excluded from the number of students eligible for testing.

Improvement Performance Rating

NOTE: Longitudinal student-matched data are unavailable at the high school level because of the structure of the curriculum and assessments. Therefore, the methodology examines improvement of cohorts of students over time.

High School Improvement Performance Rating Criteria
Index
Values for 2001, 2002 and 2003
(Values are to reexamined after initial experiences)

Rating	Improvement Index
Excellent	0.4 or greater
Good	0.3
Average	0.1-0.2
Below Average	0.0
Unsatisfactory	-0.1 or less

A school's Improvement Rating may be increased by one level if the improvement in performance of historically underachieving students meets or exceeds a criterion. Historically underachieving groups consist of African-American, Hispanic and Native American students, those eligible for the free or reduced price federal lunch program and students with non-speech disabilities. The school's eligibility for the increased Improvement Rating is determined as follows:

Step A: Calculate the Weighted Improvement Index for the group of eligible students. The group must consist of 30 or more students to be considered for analysis.

Step B: Compare the Weighted Improvement Index for the group to the State Two-Year Average Weighted Improvement Index for all students in the state. The State Two-Year Average Weighted Improvement Index is the average of the Weighted Improvement Indices for all students for the current and prior years. If the Weighted Improvement Index for the historically underachieving group in the school exceeds the State Two-Year Average Weighted Improvement Index by at least one standard deviation, the school's Improvement Rating may be increased by one level. If the school is rated Excellent for Improvement on the basis of all students, the performance for groups should also be calculated and reported even though the school's rating cannot be increased.

Schools with Absolute Ratings of Excellent in Two Subsequent Years

If a school is rated Excellent for Absolute Achievement for both years, the school will receive an Improvement Rating of "Good." If the school's Weighted Improvement Index for all students is a positive number (e.g., greater than zero), the school's Improvement Rating will be elevated to Excellent. The performance improvement of the groups will also be reported for these schools.

Ratings For Career And Technology Centers

Ratings criteria and definitions were developed through work with a group of career and technology center directors and with advice from the School-to-Work Advisory Council. Four criteria for use in the ratings are adopted as shown below. These criteria incorporate the requirements of the statute, as further detailed in the proviso.

1. Enrollment in the Center: The percentage of students enrolled in the Center for one or more courses as a percentage of students eligible to attend. For example, a center serving five high schools would calculate this criterion by determining the enrollment at each of the high schools in the grades eligible to attend the center; divide the number eligible into the number of students actually enrolled in the center;

2. Mastering Core Competencies or Certification Requirements: The percentage of students enrolled in Center courses who earn a 2.0 or above on the final course grade. Students are to be assessed on the competencies identified in the adopted syllabi or specified for certification programs (e.g., FAMS). This factor applies to students enrolled in any center course. This criterion is weighted at twice the value of other criteria;
3. Graduation Rate: The number of 12th grade career technology education students who graduate in the spring is divided by the number of 12th graders enrolled in the Center and converted to a percentage. This criterion incorporates passage of the Exit Examination required for graduation;
4. Placement Rate: The percent of career and technology completers who are available for placement in either postsecondary instruction, military services or employment is divided into the percentage of students over a three-year period who are actually placed. This criterion mirrors the Perkins standard.

Absolute Performance Level

The absolute performance level will be calculated on the basis of a weighted model in which differing levels of performance are assigned value using a five-point scale. The scale is shown below:

Criterion	Points Assigned				
	5	4	3	2	1
Enrollment	25 % or more	20-24%	15-19%	10-14%	9 % or below
Mastery (weighted x 2)	81 % or more	71-80 %	61-70%	51-60%	50 % or below
Graduation	99% or more	94-98 %	88-93%	82-87%	81% or below
Placement	91 % or more	81-90 %	71-80 %	61-70 %	60 % or below

An index is to be created for each Center. The sample calculation below demonstrates the determination:

Sample Calculation:

For a Center with	16 % of eligible students enrolling	=	3 points
	78% of students exhibiting mastery	=	8 points
	97% of 12 th graders graduating	=	4 points
	73 % placement rate	=	3 points
	Total points	=	18 points
	Index (Total points /5)	=	3.6

Career and Technology Center Absolute Performance Rating

Year	Excellent	Good	Average	Below Average	Unsatisfactory
2001	3.4 and above	3.0-3.3	2.6-2.9	2.2-2.5	Below 2.2
2002	3.4 and above	3.0-3.3	2.6-2.9	2.2-2.5	Below 2.2
2003	3.4 and above	3.0-3.3	2.6-2.9	2.2-2.5	Below 2.2
2004	3.5 and above	3.1-3.4	2.7-3.0	2.3-2.6	Below 2.3
2005	3.6 and above	3.2-3.5	2.8-3.1	2.4-2.7	Below 2.4
2006	3.7 and above	3.3-3.6	2.9-3.2	2.5-2.8	Below 2.5
2007	3.8 and above	3.4-3.7	3.0-3.3	2.6-2.9	Below 2.6
2008	3.9 and above	3.5-3.8	3.1-3.4	2.7-3.0	Below 2.7
2009-2010	4.0 and above	3.6-3.9	3.2-3.5	2.8-3.1	Below 2.8

Improvement Rating

NOTE: Longitudinal student-matched data are unavailable for career and technology centers because of the structure of the curriculum and the criteria used in the ratings. Therefore, the methodology examines improvement of cohorts of students over time.

Comparison of school indices using student cohort data: The weighted index of scores from year one is to be computed and compared to the weighted index from year two. The difference between the two indices will be computed. For example if the Year Two index is 3.5 and the Year One index was 3.20, the difference would be .3.

Career and Technology Center Improvement Performance Rating

Values for 2001, 2002 and 2003

(Values are to be reexamined after initial experiences)

Rating	Improvement Index
Excellent	0.4 or greater
Good	0.3
Average	0.1-0.2
Below Average	0.0
Unsatisfactory	-0.1 or less

A school's Improvement Rating may be increased by one level if the improvement in performance of historically underachieving students meets or exceeds a criterion. Historically underachieving groups consist of African-American, Hispanic and Native American students, those eligible for the free or reduced price federal lunch program and students with non-speech disabilities. The school's eligibility for the increased Improvement Rating is determined as follows:

Step A: Calculate the Weighted Improvement Index for the group of eligible students. The group must consist of 30 or more students to be considered for analysis.

Step B: Compare the Weighted Improvement Index for the group to the State Two-Year Average Weighted Improvement Index for all students in the state. The State Two-Year Average Weighted Improvement Index is the average of the Weighted Improvement Indices for all students for the current and prior years. If the Weighted Improvement Index for the historically underachieving group in the school exceeds the State Two-Year Average Weighted Improvement Index by at least one standard deviation, the school's Improvement Rating may be increased by one level. If the school is rated Excellent for Improvement on

the basis of all students, the performance for groups should also be calculated and reported even though the school's rating cannot be increased.

Schools with Absolute Ratings of Excellent in Two Subsequent Years

If a school is rated Excellent for Absolute Achievement for both years, the school will receive an Improvement Rating of "Good." If the school's Weighted Improvement Index for all students is a positive number (e.g., greater than zero), the school's Improvement Rating will be elevated to Excellent. The performance improvement of the groups will also be reported for these schools.

Ratings For School Districts

Both Absolute Performance and Improvement Ratings of school districts are to be calculated through a repetition of the school methodology for Grades 3-8 and High Schools. Students included in the calculation of the indices include any student enrolled in the district as of the 45th day of instruction and participating in the testing programs while enrolled in the district. The indices for Grades 3-8 and High Schools are to be weighted in accordance with the distribution of students in membership at those levels, using the 135-day average daily membership for the determination of the weighting. A cumulative index is defined and the index is evaluated below:

District Absolute Performance Rating

Year	Excellent	Good	Average	Below Average	Unsatisfactory
2001	3.4 and above	3.0-3.3	2.6-2.9	2.2-2.5	Below 2.2
2002	3.4 and above	3.0-3.3	2.6-2.9	2.2-2.5	Below 2.2
2003	3.4 and above	3.0-3.3	2.6-2.9	2.2-2.5	Below 2.2
2004	3.5 and above	3.1-3.4	2.7-3.0	2.3-2.6	Below 2.3
2005	3.6 and above	3.2-3.5	2.8-3.1	2.4-2.7	Below 2.4
2006	3.7 and above	3.3-3.6	2.9-3.2	2.5-2.8	Below 2.5
2007	3.8 and above	3.4-3.7	3.0-3.3	2.6-2.9	Below 2.6
2008	3.9 and above	3.5-3.8	3.1-3.4	2.7-3.0	Below 2.7
2009-2010	4.0 and above	3.6-3.9	3.2-3.5	2.8-3.1	Below 2.8

Students who should be tested but are not tested will be assigned a weight of 0 in the accountability ratings.

Inclusion of students with disabilities in the Absolute Performance Rating is to be accomplished in the following manner:

1. Students with accommodated administrations will be treated identical to students taking other assessments in its standard form in absolute school and district ratings;
2. Students taking alternate assessments will be reported only at the district level;
3. Students taking modified assessments, including "off-level assessments", will be factored into the absolute and improvement ratings according to the test score earned; and
4. The percentage of students taking PACT assessments on grade level and "off-grade level" is to be published on the district report card and shown in comparison to the percentage statewide.

The inclusion of students with Limited English Proficiency: Students with Limited English Proficiency are only tested in accordance with federal guidelines; therefore, students excused from testing by federal rules are excluded from the number of students eligible for testing.

Improvement Rating

The Education Accountability Act provides that the EOC may consider the performance of subgroups of students in the improvement ratings. Improvement ratings are based on longitudinally matched student data.

Calculation of the Improvement Index

Step 1: For the students who qualify for inclusion (e.g., those students for whom both current and prior year test scores are available and who were enrolled in the school by the 45th day of the current school year), a weighted index for the current year and for the prior year will be computed. The weighted indices for each year will be calculated in the same way as the Absolute Performance Index.

Step 2: Subtract the weighted index from the prior year from the weighted index for the current year. This difference is the Weighted Improvement Index. For example, if the current year weighted index is 3.5 and the prior year's weighted index was 3.2, the Weighted Improvement Index is 0.3. An important point to note is that the Absolute Performance Index calculated to determine the Absolute Performance Rating for a given year and the weighted index for calculating the Weighted Improvement Index for the same year may differ because of differences in the 45-day enrollments and the loss of student data which could not be longitudinally matched.

Step 3: Weight the indices in Grades 3-8 and high schools in accordance with the distribution of students in membership at those levels, using the 135-day average daily membership for the determination of the weighting. Compare the district's cumulative Weighted Improvement Index to those in the table below to determine the district's Improvement Rating. For example, the district achieving a Weighted Improvement Index = 0.3 would receive an Improvement Rating of "good."

Improvement Performance Rating Criteria
Index and Achievement Gap Reduction Incentive
Values for 2001, 2002, and 2003
(Values to be reexamined after initial experiences)

Rating	Improvement Index
Excellent	0.4 or greater
Good	0.3
Average	0.1-0.2
Below Average	0.0
Unsatisfactory	-0.1 or less

Step 4: A district's Improvement Rating may be increased by one level if the improvement in performance of historically underachieving students meets or exceeds a criterion. Historically underachieving groups consist of African-American, Hispanic and Native American students, those eligible for the free or reduced price federal lunch program and students with non-speech disabilities. The district's eligibility for the increased Improvement Rating is determined as follows:

Step 4A: Calculate the Weighted Improvement Index for the group of eligible students. The group must consist of 30 or more students to be considered for analysis.

Step 4B: Compare the Weighted Improvement Index for the group to the State Two-Year Average Weighted Improvement Index for all students in the state. The State Two-Year Average Weighted Improvement Index is the average of the Weighted

Improvement Indices for all students for the current and prior years. If the Weighted Improvement Index for the historically underachieving group in the district exceeds the State Two-Year Average Weighted Improvement Index by at least one standard deviation, the district's Improvement Rating may be increased by one level. If the district is rated Excellent for Improvement on the basis of all students, the performance for groups should also be calculated and reported even though the district's rating cannot be increased.

Districts with Absolute Ratings of Excellent in Two Subsequent Years

If a district is rated Excellent for Absolute Achievement for both years, the district will receive an Improvement Rating of "Good." If the district's Weighted Improvement Index for all students is a positive number (e.g., greater than zero), the district's Improvement Rating will be elevated to Excellent. The performance improvement of the groups will also be reported for these districts.

Ratings For Special Schools

The Department Of Corrections: Palmetto Unified School District

Students to be included in the Rating

High school eligible students who have participated in the educational program for a minimum of 100 days during the fiscal year. All Palmetto Unified programs are to be reported as one school.

Criteria for the Rating

- (1) GED Completion Rate: This is calculated by the number of successful completers divided by the number of students enrolled in the GED program. Those who completed the GED prior to 100 days are to be included in the calculation;
- (2) Vocational Program Completers: This is calculated by the number of program completers (federal definition) is divided by the number of students enrolled in the vocational program; and
- (3) Pre-post test gains on the TABE: This average pre-post test gain is calculated by adding the gains of individual students and dividing by the total number of students.

Calculation of the Absolute Performance Rating

Assign points (1-5) for each criterion in the following manner:

Criterion	Points Assigned				
	5	4	3	2	1
GED Completion %	81-100	61-80	41-60	20-40	19 or less
Vocational Completers %	81-100	61-80	41-60	20-40	19 or less
Pre-Post TABE	0.80 or more	0.60-0.79	0.40-0.59	0.20-0.39	Less than 0.20

Add the points and divide by 3 to yield index.

Absolute Performance Level Ratings

Rating	2010 Target	2001 (80% with increases of 0.1/year beginning in 2004)
Excellent	4.0 or more	3.2 or more
Good	3.6-3.9	2.9-3.1
Average	3.3-3.5	2.6-2.8
Below Average	3.0-3.2	2.4-2.5
Unsatisfactory	Less than 3.0	Less than 2.4

Improvement Rating

Using the absolute performance indices, calculate annual gains based on current year minus previous year.

Palmetto Unified Improvement Ratings
Values for 2001, 2002, and 2003
(Values to be reexamined after initial experiences)

Rating	Improvement Index
Excellent	Gains of .3 or above
Good	Gains of .2 to .29
Average	Gains of .1 to .19
Below Average	Gains of .01 to .09
Unsatisfactory	No gain or a loss

Department Of Juvenile Justice

Students to be included in the Rating

Students enrolled in the program eight months or more. Because of variations in school size and student assignment to DJJ facility, DJJ system schools are reported in an aggregated manner.

Criteria for the Rating

- (1) California Achievement Test (CAT): A pretest is administered when the juvenile is first committed. A post-test is administered at the juvenile's 8-month anniversary and each 8-month anniversary thereafter. Scores are reported as differences in grade equivalencies in reading and math;
- (2) The Exit Exam is administered to juveniles who are enrolled at DJJ during the month of state testing. The sample of students who take the Exit Exam and have been committed to DJJ for at least 8 months will be reported as a percentage meeting standards.

Calculation of the Absolute Performance Rating

Criterion	Points Assigned				
	5	4	3	2	1
% students gaining at least one grade on CAT	90-100	80-89	70-79	60-69	Less than 60
% students passing one or more subtests on Exit Exam	90-100	80-89	70-79	60-69	Less than 60

Add points relevant to percentage of students meeting goal and divide by 2 to determine the index.

Absolute Performance Level Ratings

Rating	2010 Target	2001 (80% with increases of 0.1/year beginning in 2004)
Excellent	4.0 or more	3.2 or more
Good	3.6-3.9	2.9-3.1
Average	3.3-3.5	2.6-2.8
Below Average	3.0-3.2	2.4-2.5
Unsatisfactory	Less than 3.0	Less than 2.4

Using the absolute performance indices, calculate annual gains based on current year minus previous year.

Department of Juvenile Justice Improvement Ratings Values for 2001, 2002, and 2003 (Values to be reexamined after initial experiences)

Rating	Improvement Index
Excellent	Gains of .3 or above
Good	Gains of .2 to .29
Average	Gains of .1 to .19
Below Average	Gains of .01 to .09
Unsatisfactory	No gain or a loss

The South Carolina School For The Deaf And Blind

Students to be included in the Rating

Students who are enrolled in the school as of the 45th day of instruction and remain through the spring testing period are included in the rating.

Criteria for the Rating

- (1) Mastery of IEP Objectives: Mastery is documented through categorical scores in English Language Arts and Math Assessments (reported as Advanced, Proficient, Basic and Below Basic)
- (2) PACT-Alternate: Student scores are reported on the state-adopted scale of Advanced, Proficient, Basic and Below Basic
- (3) Brigance Performance: Gains per year on the developmental scale are converted to categories of Advanced, Proficient, Basic and Below Basic

Calculation of the Index

Criterion	Points Assigned				
	5	4	3	2	1
% Mastery of IEP objectives	90-100	76-89	60-75	50-59	Less than 50
PACT-Alt	Advanced	Proficient	Basic	Below Basic 2	Below Basic 1
Brigance gain	90-100	76-89	60-75	50-59	Less than 50

For each criterion, the value for individual students is assigned and aggregated across criteria and students. The aggregate is divided by the total number of student scores to yield an index.

Absolute Performance Level Ratings

Rating	2010 Target	2001 (80% with increases of 0.1/year beginning in 2004)
Excellent	4.0 or more	3.2 or more
Good	3.6-3.9	2.9-3.1
Average	3.3-3.5	2.6-2.8
Below Average	3.0-3.2	2.4-2.5
Unsatisfactory	Less than 3.0	Less than 2.4

Improvement Rating

Using the absolute performance indices, calculate annual gains based on current year minus previous year.

SC School for the Deaf and Blind Improvement Ratings
Values for 2001, 2002, and 2003
(Values to be reexamined after initial experiences)

Rating	Improvement Index
Excellent	Gains of .3 or above
Good	Gains of .2 to .29
Average	Gains of .1 to .19
Below Average	Gains of .01 to .09
Unsatisfactory	No gain or a loss

The Governor's School For Science And Mathematics

Students to be included in the Rating

Students enrolled in the school as of the 45th day of instruction and continuing through the spring testing period.

Criteria for the Rating

- (1) Advanced Placement passage rate: The percentage of students scoring 3 or above on Advanced Placement Examinations;
- (2) Freshman Year GPA: The mean Grade Point Average of students in the fall semester of their freshman year (these data are to be reported on students graduating in the previous year);
- (3) SAT: The mean SAT performance of graduating seniors

Calculation of the Index

NOTE: Each criterion is weighted as indicated in parentheses.

Criterion	Points Assigned				
	5	4	3	2	1
AP Passing Rate (.45)	87 or greater	81-86	75-80	69-74	Less than 69
Freshman GPA (.35)	3.5 or greater	3.3-3.49	3.1-3.29	2.9-3.09	Less than 2.9
Mean SAT (.20)	1300 or greater	1260-1299	1170-1259	1120-1169	Less than 1120

Absolute Performance Level Ratings

Rating	2010 Target	2001 (80% with increases of 0.1/year beginning in 2004)
Excellent	4.0 or more	3.2 or more
Good	3.6-3.9	2.9-3.1
Average	3.3-3.5	2.6-2.8
Below Average	3.0-3.2	2.4-2.5
Unsatisfactory	Less than 3.0	Less than 2.4

Improvement Rating

Using the absolute performance indices, calculate annual gains based on current year minus previous year.

Governor's School for Science and Mathematics Improvement Rating
Values for 2001, 2002 and 2003
(Values to be reexamined after initial experiences)

Improvement Rating	Improvement Index
Excellent	Maintenance of Excellent Absolute Status or gains of .15 or more
Good	Maintenance of Good Absolute Status or gains of .10
Average	Gains of .06-.09
Below Average	Gains of .01-.05
Unsatisfactory	No gain or a loss

Wil Lou Gray Opportunity School

Students to be included in the Rating

All students who are enrolled in the Wil Lou Gray Opportunity School for either of the two five-month program periods each fiscal year.

Criteria for the Rating

- (1) GED Completion Rate: This is calculated by the number of students who successfully complete the GED test divided by the number of students eligible to take the GED test;
- (2) TABE Gains: This is calculated by determining the percentage of students not eligible to take the GED who achieve a 5-month gain in math and reading as measured by pre and post TABE results. Students must attain the gain in each of the content areas to qualify as meeting the criterion;
- (3) The Challenge Program: The number of students completing the Challenge Phase of the Youth Challenge Academy is divided by the number of students entering the Challenge Phase;
- (4) Community Service: The number of community service hours is calculated for each student and the percentage of students reaching levels of service is calculated by dividing the number of students at selected levels of involvement by the total number of students.

Calculation of the Absolute Performance Rating

Assign points (1-5) for each criterion in the following manner:

Criterion	5	4	3	2	1
GED Completion Rate	81-100 percent	61-80 percent	41-60 percent	20-40 percent	Below 20 percent
TABE Gains	90-100 percent	80-89 percent	70-79 percent	60-69 percent	Below 60 percent
Challenge Phase	86-100 percent	71-85 percent	55-70 percent	40-54 percent	Below 40 percent
Community Service	100 percent at 40 or more hours, with 25 percent at more than 40 hours and 5 percent at more than 60 hours	100 percent at 40 or more hours, with 25 percent at more than 40 hours	100 percent at 40 or more hours	90-99 percent at 40 or more hours	Below 90 percent at 40 or more hours

Assignment of Value to Achievement Index

Calculate the Achievement Index by summing the points for each criterion listed above, dividing by 4, and rounding to the nearest tenth of a point.

Absolute Performance Level Ratings

Performance Level	Achievement Index, 2001 and beyond
Excellent	4.0 or above
Good	3.6-3.9
Average	3.3-3.5
Below Average	3.0-3.2
Unsatisfactory	Below 3.0

Improvement Rating

Subtract the Achievement Index for the prior year from that of the current year to calculate annual gains (Improvement Index).

Wil Lou Gray Opportunity School Improvement Rating
Values for 2001, 2002, and 2003
(Values to be reexamined after initial experiences)

Rating	Improvement Index
Excellent	0.4 or greater
Good	0.3
Average	0.1-0.2
Below Average	0.0
Unsatisfactory	-0.1 or less

Felton Laboratory School

This K-8 school receives a report card using the same criteria and information used for public schools within local school districts.

John De La Howe School

Students to be Included in the Rating

Students who have participated in the educational program for a minimum of 135 days during the school year. (Our school operates on a traditional calendar with an extended session during the summer. The extended session provides students with an opportunity to make up days and catch up in academic subjects that they may have missed while waiting for placement at John de la Howe School. We capture the attendance of our students on OSIRIS and on paper copies of attendance sheets.)

Criteria For The Rating

- (1) PACT or Exit Exam performance (dependent upon student grade level assignment. For PACT, the English language arts and mathematics tests are included; for the exit exam the results of 10th graders taking the test for the first time will be used).
- (2) STAR Reading and Mathematics: Pre-post test gains are calculated for each student in each content area and assigned value according to the point structure below. Gains are added together and divided by the number of students tested. Students who should have been tested but are not tested are assigned a point value of 0.;
- (3) Number of high school credits earned each year – The number of credits earned each year is assigned points as shown below.
- (4) Number of middle school classes passed each year – The number of classes passed each year is assigned points as shown below.

Calculation Of The Absolute Performance Rating

Assign points (1-5) for each criterion in the following manner:

Criterion	5	4	3	2	1
PACT	Advanced	Proficient	Basic	Below Basic 2	Below Basic 1
Exit Exams	Passed All 3	Passed 2	Passed 1	Passed 0	
STAR Pre-Post Testing	.81-1.0	.61-.80	.41-.60	.21-.40	.20 or less
H.S. Credits	7	6	5	4	Less than 4
M.S. Classes Passed	7	6	5	4	Less than 4

Add the points together and divide by the total number of students across all measures to determine index for school.

Calculation Of Performance Rating For 2001, 2002, AND 2003

(Values are to be re-examined after initial experiences)

Performance Rating	Absolute Performance Index
Excellent	3.4 or higher
Good	3.0 – 3.3
Average	2.6 – 2.9
Below Average	2.2 – 2.5
Unsatisfactory	Below 2.2

Calculation Of The Improvement Rating For 2001, 2002, AND 2003

(Values are to be re-examined after initial experiences):

Improvement Rating	Improvement Index
Excellent	Greater than 0.4
Good	0.21 to 0.4
Average	0.2 to –0.2
Below Average	–0.21 to –0.4
Unsatisfactory	Less than –0.4

SC Governor's School for the Arts and Humanities

Students to be Included in the Rating

Students enrolled in the school as of the 45th day of instruction and continuing through spring testing period.

Criteria for the Rating

- (1) Student Participation in State and National Arts Competitions, Auditions, Portfolio Review, Other by Senior Year
- (2) Student Recognition in State and National Arts Competitions, Auditions, Portfolio Review, Other by Senior Year
- (3) Advanced Placement (1 or more courses taken by Senior Year)
- (4) Advanced Placement Passage Rate (Exams Scored 3 and Above)
- (5) SAT Points Scored Above National Mean
- (6) Eligibility for Life Scholarship
- (7) Seniors Awarded Scholarships, including Life Scholarship

Calculation of the Index

Note: Each criterion is weighted as indicated in parentheses

Criterion	Points Assigned				
	5	4	3	2	1
Participation State/Nationals (.20)	85% +	75-84%	65-74%	55-64%	54% or less
Recognition State/Nationals (.20)	65% +	55-64%	45-54%	35-44%	34% or less
AP Course Taking (.12)	75% +	65-74%	55-64%	45-54%	44% or less
AP Exam Pass Rate 3+ (.12)	85% +	75-84%	65-74%	55-64%	54% or less
SAT Pts Above Nat'l Mean (.12)	100+pts	90-99 pts	80-89 pts	70-79 pts	69 pts or less
LIFE Scholarship (.12)	70% +	60-69%	50-59%	40-49%	39% or less
Scholarship Awards (Include LIFE) (.12)	85% +	75-84%	65-74%	55-64%	54% or less

Assignment of Value to Achievement Index

Ratings for each of the seven Standards of Achievement described herein will determine the school's overall performance level. The performance achieved for each standard, as compared to the criteria established specifically for each standard, will be awarded points based on the following scale: Excellent = 4 points; Good = 3 points; Average = 2 points; Below = 1 point; and Unsatisfactory = 0 points. Points awarded for Standards 1 and 2 will be weighted at 20% each; and points awarded for Standards 3,4,5,6 & 7 will be weighted at 12% each. Calculate the Achievement Index by summing the weighted points for each criterion listed above and rounding to the nearest tenth of a point.

Absolute Performance Level Ratings

Performance Level	Achievement Index, 2000-2001
Excellent	3.5 or above
Good	3.0-3.4
Average	2.5-2.9
Below Average	2.0-2.4
Unsatisfactory	Below 2.0

Improvement Rating

The school's overall improvement rating for 2000-2001 will be determined as follows: For each standard, the following will apply: An improved performance over the prior year yields 3 points; a lowered rating deducts 3 points; maintaining an Excellent rating yields 3 points; and maintaining a Good rating yields 2 points. The school's overall Improvement rating will be determined by the total sum of points earned across the standards based on the following scale: 20 points = Excellent; 17-19 points = Good; 14-16 = Average; 11-13 = Below; and <11 = Unsatisfactory.

School Grade (Composite Rating of School Achievement)

1. The School Grade simultaneously summarizes a school's Absolute Rating and Improvement Rating and provides an evaluative statement regarding both its current level of achievement at the end of the school year and the progress observed over the year. It will be placed on page 1 of the report card.
2. The School Grade does not include additional new information nor does it involve the recalculation of any numeric index. It is based on the school's Absolute Rating, which is adjusted upward or downward (or left the same) depending on the Improvement Rating.
3. Based on prior experiences with other state tests, improvement gains may level off as schools statewide begin to attain the absolute achievement goal for 2010. If this occurs, the number of schools receiving School Grades higher than their Absolute Ratings will also decline over time.

Calculation of School Grade

The rules for determining the School Grade based on Absolute and Improvement Ratings are listed below:

Improvement Rating	Adjustment to Absolute Rating
Excellent	Adjust upward two levels
Good	Adjust upward one level
Average or Below Average	No change in rating
Unsatisfactory	Adjust downward one level
Same as Absolute Rating	No change in rating

Comparison of Absolute, Improvement, and School Grade Categories

Absolute Rating	Improvement Rating	School Grade
Excellent	Excellent	Excellent
Excellent	Good	Excellent
Excellent	Average*	Excellent
Excellent	Below Average*	Excellent
Excellent	Unsatisfactory*	Good
Good	Excellent	Excellent
Good	Good	Good
Good	Average	Good
Good	Below Average	Good
Good	Unsatisfactory	Average
Average	Excellent	Excellent
Average	Good	Good
Average	Average	Average
Average	Below Average	Average
Average	Unsatisfactory	Below Average
Below Average	Excellent	Good
Below Average	Good	Average
Below Average	Average	Below Average
Below Average	Below Average	Below Average
Below Average	Unsatisfactory	Unsatisfactory
Unsatisfactory	Excellent	Average
Unsatisfactory	Good	Below Average
Unsatisfactory	Average	Unsatisfactory
Unsatisfactory	Below Average	Unsatisfactory
Unsatisfactory	Unsatisfactory	Unsatisfactory

* Schools receiving Absolute Ratings of Excellent for two consecutive years will receive Improvement Ratings of Good; if the Improvement Index for these schools is greater than zero, their Improvement Ratings will be Excellent.

Section III

2001 ACCOUNTABILITY RATING CRITERIA AND STANDARDS

Inclusion of New Assessments in Ratings

New assessments are to be included in school and district absolute ratings upon their third administration. For example, the PACT science exam for Grades 3-8 is administered first in 2002. Data on student performance would be included in the November 2004 report card. Growth from the second to third administration would be used in the Improvement Rating.

Process for Determining Criteria for School/District Profile Information

Indicators provide information about the educational environment over which the school community has control and precede performance. School or district facts provide other information about the staff, students, or school. The process for adding indicators or facts to the annual school or district report card should incorporate four stages: (1) initial study and discussion; (2) study of pilot variable; (3) baseline collection and (4) inclusion on published report card. At least one year must pass between the baseline collection and publication on the report card.

Minimum Size Requirements

Districts and schools with small numbers of students present a special challenge to the accountability system. There are two types of small numbers situations. One is small numbers of students within a group, e.g., few African-American test takers in reading. The second is small numbers of total students, that is, few total students tested.

Districts and schools with small numbers of total students present special challenges regarding the stability of the data as well as the confidentiality of student performance. While all districts and campuses are rated initially under standard evaluation, these small districts and schools are subject to Special Analysis under the circumstances specified below:

- ❑ If standard evaluation indicates that a rating of *Excellent* or *Good* is appropriate, then a Special Analysis is conducted when there are fewer than 30 total students tested in two or more PACT areas;
- ❑ If standard evaluation indicates that a rating of *Below Average* or *Unsatisfactory* may be appropriate, then Special Analysis is conducted only when there are fewer than 30 total students tested which caused the district/school to be considered *Below Average* or *Unsatisfactory*.
- ❑ When the standard evaluation results in a rating of *Average*, no further analysis is performed, even if the district or campus has fewer than 30 students tested in one or more subjects of the PACT (summed across all grades tested).

If Special Analysis is necessary, only total student performance is examined. Under Special Analysis, data will be checked for completeness and accuracy and the ratings adjusted if necessary.

Quantitative Parameters for Each Rating Category

Following analyses of the 2000 PACT data for elementary and middle schools, and Exit Exam and LIFE Scholarship eligibility for high schools, the parameters for each rating category were established by the Education Oversight Committee. The ratings simulation data for elementary,

middle, and high schools are listed in Appendix B. The Committee is implementing a phase-in of ratings criteria that increases rigor over time.

Reporting of Subgroup Performance

Student performance will be disaggregated in the following categories: gender, ethnicity, disability, and lunch status for each subtest. A disaggregated group will be reported if the group is comprised of at least 30 students (summed across grades) for each subject area.

Ratings Conditional on the Performance of Student Subgroups

Schools and districts are accountable for the performance of all students regardless of ethnicity or lunch status. Performance levels for groups disaggregated for ethnicity or lunch status shall be a condition in the improvement ratings consistent with the provisions of §59-18-900(C).

Section IV LONGITUDINALLY MATCHED DATA

'Improvement performance' means the rating a school will receive based on longitudinally matched student data comparing current performance to the previous year's for the purpose of determining student academic growth.

'Longitudinally matched student data' means examining the performance of a single student or a group of students by considering their test scores over time.

For grades 3-8, data will be matched longitudinally at the student level. The matching of student data may be accomplished by computer, provided that the matching information is consistent for each student and unique to that student. Current matching programs utilize some combination of name and demographic information.

Section V SCHOOLS SIMILAR IN STUDENT CHARACTERISTICS

Districts and Schools Similar in Student Characteristics

Statutory Authority: §59-18-900 (C). In setting the criteria for the academic performance ratings and the performance indicators, the Education Oversight Committee shall report the performance by subgroups of students in the school and schools similar in student characteristics: *consideration of these factors must be given only in the improvement rating.* (Note: the EAA was amended in 2001 to eliminate the previous italicized section.) Criteria must use established guidelines for statistical analysis and build on current data-reporting practices.

Building School Groups

As a result of a series of analyses and discussions among educators, a variable which combines information about the percentage of students in a school eligible for Medicaid services and the percentage participating in free or reduced lunch services (PPOV) has been identified as the grouping variable for similar schools. PPOV was identified as the grouping variable based on its strong correlation with student outcome measures (see the *2000-2001 Accountability Manual* for a description of this analysis). The inclusion of Medicaid as an indicator of poverty is important for some schools and pockets of the population where families and individual students are resistant to applying for free or reduced price meals.

Schools are banded in such a way that each school is at the center of its own band of schools similar in student characteristics (except for schools at the extremes). Schools and school units are categorized as elementary, middle, or high as previously defined (see pages 6-7). Bands are based on the range in percentages. For example, schools are banded in such a way that other schools with PPOV within + or – five percentage points will be included in the school's band. Using this methodology results in band groupings that vary in the number of schools, but that are similar in terms of the percentage of economically disadvantaged students.

In the 1999-2000 school year PPOV for schools ranged from 6% to 100% with a statewide mean of 54%. School bands will be re-calculated annually. The band width will be determined annually based on the distribution of PPOV.

Section VI REPORT CARD INFORMATION AND PRESENTATION

The format and detail presented on the annual school and district report card are described and shown below. Decisions on format were made with the participation of members of the State Board of Education and the State Superintendent of Education. The data listed on each page of the school and district report cards are indicated in Appendix D, Table of Specifications.

The format and presentation, including issues of readability, are to be addressed in the annual reviews conducted by the Education Oversight Committee.

General Design Issues

The Report Card is to be printed in a format providing four pages of information (an 8 1/2 by 11 sheet folded).

The Report Card is to be printed in four colors, providing ease in understanding of the graphics. Use of the colors is specified below. (Note: The Appropriations Act for FY 2002 currently under consideration calls for the substitution of black and white shades for colors on the November, 2001 report card because of limited funding.)

Page One

General Information about the school and the School Grade rating assigned to school performance are to be displayed on the first page of the report card. This applies to report cards published for a school or program unit.

The information should include the following:

- ☐ Designation that the document is "The State of South Carolina Annual School or District Report Card";
- ☐ Designation of the school year that is the basis for the ratings and related information;
- ☐ The name and address of the school, program unit, center, or district;
- ☐ The grades and number of students served;
- ☐ The special purpose of the school if it is an alternative, charter, magnet or special school;
- ☐ The names and telephone numbers of the principal, and superintendent (multiple superintendents for career and technology centers);
- ☐ The name and telephone number of the school board chairperson;
- ☐ The School Grade;
- ☐ South Carolina Performance Goal: By 2010, South Carolina's student achievement will be ranked in the top half of states nationally. To achieve this goal, we must become one of the five fastest improving systems in the country.
- ☐ Indications of the state website addresses or state offices to be contacted for additional information.

Page Two

Information detailing the performances that are included in the performance level and improvement rate ratings should be provided on page two. The information, specific to school level or purpose, should be provided in both graphical and tabular form and offer disaggregation that enhances understanding. This information is supportive of the school rating and is limited to the performance of students included in the absolute performance level rating.

Specifically, the information on page two should include the following (shown by school organization):

Early Childhood Centers (Schools enrolling students in a combination of grade kindergarten through grade two only)

- ❑ The ratings assigned to the school for "Performance Level" and "Improvement Rate";
- ❑ There are _____ schools similar to school X whose performance level rating ranged from _____ to _____. For improvement ratings the range was _____ to _____.
- ❑ Student Attendance: Student attendance is to be calculated in the same manner as for other SC schools [See the Accountability Manual for formula];
- ❑ Pupil-Teacher ratios: Pupil-teacher ratio is to be calculated by dividing the number of students enrolled in the school on the 45th day of school, divided by the total number of teachers in the school (excluding counselors, librarians, administrative personnel, specialists and teachers of the arts, physical education or special education);
- ❑ Parent Involvement: Involvement is to be calculated by dividing the number of students in the schools whose parents/guardians attend at least one individual parent conference (unduplicated count) during the school year by the 135th day ADM;
- ❑ External Accreditation: Accreditation that is early childhood specific is to be determined by application and/or receipt of accreditation. The scale ranges from State Department of Education Accreditation through early childhood specific accreditation by the Southern Association of Colleges and Schools to the accreditation by the American Montessori Society or the National Association for the Education of Young Children;
- ❑ Professional Development: The proportion of professional development time devoted exclusively to knowledge and skills working with young children (less than eight years) is to be calculated;

and for 2004 and beyond

- ❑ Professional Preparation: The proportion of teachers with degrees and certification in early childhood education; and
- ❑ Utilization of an environmental measure for program improvement (e.g., Early Childhood Environmental Rating Scale).

Elementary Schools

- ❑ The ratings assigned to the school for "Performance Level" and "Improvement Rate";
- ❑ There are _____ schools similar to school X whose performance level rating ranged from _____ to _____. For improvement ratings the range was _____ to _____.
- ❑ A table displaying the performance trends in performance and improvement levels over a 4-year period;
- ❑ Pie charts displaying the proportion of students scoring at each performance level aggregated across all grades and disaggregated by content area. The percentage of students scoring at each performance level should be printed on or adjacent to the pie piece representing that performance level. The size of the pie piece should reflect the percentage. Advanced scores should be displayed in blue; proficient scores displayed in green; basic scores displayed in yellow; and below basic scores displayed in red;
- ❑ Pie charts should be presented that demonstrate the performance of students (aggregated and disaggregated in a similar manner) in schools similar in student characteristics;
- ❑ Definitions of Critical Terms: The SBE-adopted meanings of Advanced, Proficient, Basic and Below Basic should be published;
- ❑ The report card should include sentences stating when science scores are to be reported and when social studies scores are to be reported;

- ❑ A table displaying the "Percentage of Students Scoring Basic or Above" should display student performance for each content area and disaggregated by these student groups: All Students (n=---); Students with Disabilities (n=---); Students without Disabilities (n=---); Gender: Male (n=--); Female (n=--); Ethnic Group: African-American (n=--); Asian/Pacific Islander (n=--); Hispanic (n=---); Native American (n=---); White (n=---); and Other Groups (n=---); Lunch Status: Free/reduced lunch (n=---); Pay for lunch (n=---). No student group should be reported that contains fewer than 30 students. When an ethnic group is too small to report, the small groups should be collapsed into the Other category.

Middle Schools

- ❑ The ratings assigned to the school for "Performance Level" and "Improvement Rate";
- ❑ There are _____ schools similar to school X whose performance level rating ranged from _____ to _____. For improvement ratings the range was _____ to _____.
- ❑ A table displaying the performance trends in performance and improvement levels over a 4-year period;
- ❑ Pie charts displaying the proportion of students scoring at each performance level aggregated across all grades and disaggregated by content area. The percentage of students scoring at each performance level should be printed on or adjacent to the pie piece representing that performance level. The size of the pie piece should reflect the percentage. Advanced scores should be displayed in blue; proficient scores displayed in green; basic scores displayed in yellow; and below basic scores displayed in red.
- ❑ Pie charts should be presented that demonstrate the performance of students (aggregated and disaggregated in a similar manner) in schools similar in student characteristics;
- ❑ Definitions of Critical Terms: The SBE-adopted meanings of Advanced, Proficient, Basic and Below Basic should be published;
- ❑ The report card should include sentences stating when science scores are to be reported and when social studies scores are to be reported.
- ❑ A table displaying the "Percentage of Students Scoring Basic or Above" should display student performance for each content area and disaggregated by these student groups: All Students (n=---); Students with Disabilities (n=---); Students without Disabilities (n=---); Gender: Male (n=--); Female (n=--); Ethnic Group: African-American (n=---); Asian/Pacific Islander (n=---); Hispanic (n=---); Native American (n=---); White (n=---); and Other Groups (n=---); Lunch Status: Free/reduced lunch (n=---); Pay for lunch (n=---). No student group should be reported that contains fewer than 30 students. When an ethnic group is too small to report, the small groups should be collapsed into the Other category.

High Schools

- ❑ The ratings assigned to the school for "Performance Level" and "Improvement Rate";
- ❑ There are _____ schools similar to school X whose performance level rating ranged from _____ to _____. For improvement ratings the range was _____ to _____.
- ❑ A table displaying the performance trends in performance and improvement levels over a 4-year period;
- ❑ Pie charts displaying the proportion of tenth grade students in the current year and for the preceding two years who passed one or more subtests of the Exit Exam. The results should be disaggregated by number of subtests passed. The percentage of students scoring at each performance level should be printed on or adjacent to the pie piece representing each number of subtests passed (e. g., none, 1, 2, or 3). The size of the pie piece should reflect the percentage. All three passed should be displayed in blue; two passed displayed in green; one passed displayed in yellow; and none passed displayed in red.
- ❑ Pie charts should be presented that demonstrate the performance of students (aggregated and disaggregated in a similar manner) in schools similar in student characteristics;

- ❑ Longitudinal Exit Examination Performance: This factor gauges the percentage of tenth grade students who pass the exit exam by the spring graduation two years later. Students transferring to other schools should be deleted from the calculation; however students dropping out are included;
- ❑ Tenth Grade First attempt Exit Examination Performance: The percentage of 10th grade students in the current school year who meet the standards on all three Exit Examination subtests (Reading, Writing, Mathematics);
- ❑ Eligibility for LIFE Scholarships: The percentage of students in the spring graduating class who qualify for LIFE Scholarships (i.e., meeting both the grade point average and SAT/ACT criteria established by the State);
- ❑ In 2003 and thereafter, Graduation Rate: Calculation of the graduation rate is defined in the EOC Accountability Manual adopted in May 2000.
- ❑ A table displaying "Performance by Student Groups" should display student performance for each area (e. g., percent eligible for LIFE Scholarships; percent passing all parts of the Exit Exam in a two-year period, and percent passing all three subtests of the Exit Exam on their first attempt in the tenth grade) and disaggregated by these student groups: All Students (n=---); Students with Disabilities (n=---); Students without Disabilities (n=---); Gender: Male (n=--); Female (n=--); Ethnic Group: African-American (n=---); Asian/Pacific Islander (n=---); Hispanic (n=---); Native American (n=---); White (n=---); and Other Groups (n=---); Lunch Status: Free/reduced lunch (n=---); Pay for lunch (n=---). No student group should be reported that contains fewer than 30 students. When an ethnic group is too small to report, the small groups should be collapsed into the Other category.

Career and Technology Centers

- ❑ The ratings assigned to the school for "Performance Level" and "Improvement Rate";
- ❑ There are _____ schools similar to school X whose performance level rating ranged from _____ to _____. For improvement ratings the range was _____ to _____.
- ❑ A table displaying the performance trends in performance and improvement levels over a 4-year period;
- ❑ Enrollment in the Center: The percentage of students enrolled in the Center for one or more courses as a percentage of students eligible to attend. For example, a center serving five high schools would calculate this criterion by determining the enrollment at each of the high schools in the grades eligible to attend the center; divide the number eligible into the number of students actually enrolled in the center;
- ❑ Mastering Core Competencies or Certification Requirements: The percentage of students enrolled in Center courses who earn a 2.0 or above on the final course grade. Students are to be assessed on the competencies identified in the adopted syllabi or specified for certification programs (e.g., FAMS). This factor applies to students enrolled in any center course. This criterion is weighted at twice the value of other criteria;
- ❑ Graduation Rate: The number of 12th grade career technology education students who graduate in the spring is divided by the number of 12th graders enrolled in the Center and converted to a percentage. This criterion incorporates passage of the Exit Examination required for graduation;
- ❑ Placement Rate: The percent of career and technology completers who are available for placement in either postsecondary instruction, military services or employment is divided into the percentage of students over a three-year period who are actually placed. This criterion mirrors the Perkins standard.
- ❑ A table displaying "Performance by Student Groups" should display student performance for each area serving as the basis for the ratings and disaggregated by these student groups: All Students (n=---); Students with Disabilities (n=---); Students without Disabilities (n=---); Gender: Male (n=--); Female (n=--); Ethnic Group: African-American (n=---); Asian/Pacific

Islander (n=---); Hispanic (n=---); Native American (n=---); White (n=---); and Other Groups (n=---); Lunch Status: Free/reduced lunch (n=---); Pay for lunch (n=---). No student group should be reported that contains fewer than 30 students. When an ethnic group is too small to report, the small groups should be collapsed into the Other category.

District Card

Information detailing the performances that are included in the performance level and improvement rate ratings should be provided on page two. The information, specific to district and school, should be provided in both graphical and tabular form and offer disaggregation that enhances understanding.

- ❑ The ratings assigned to the school for "Performance Level" and "Improvement Rate";
- ❑ A table displaying the performance trends in performance and improvement levels over a 4-year period;
- ❑ Definitions of Critical Terms: The SBE-adopted meanings of Advanced, Proficient, Basic and Below Basic, Terra Nova, NAEP, SAT and ACT should be published;
- ❑ Pie charts displaying the proportion of students scoring at each PACT performance level aggregated across all content areas. The percentages should be printed on the pie chart graph and be consistent with the measurement. Advanced scores should be displayed in blue; proficient scores displayed in green; basic scores displayed in yellow; and below basic scores displayed in red, and a table displaying the performance of disaggregated groups of students;
- ❑ The report card should include sentences stating when science scores are to be reported and when social studies scores are to be reported;
- ❑ A table should display: PACT results; LIFE scholarship data; and Exit Exam performance for current 10th grade students passing all portions on the first attempt and the longitudinal performance on the Exit Exam of 10th graders two years after their first attempt. The student performance reported should be disaggregated by these student groups: All Students (n=---); Students with Disabilities (n=---); Students without Disabilities (n=---); Gender: Male (n=---); Female (n=---); Ethnic Group: African-American (n=---); Asian/Pacific Islander (n=---); Hispanic (n=---); Native American (n=---); White (n=---); and Other Groups (n=---); Lunch Status: Free/reduced lunch (n=---); Pay for lunch (n=---). No student group should be reported that contains fewer than 30 students. When an ethnic group is too small to report, the small groups should be collapsed into the Other category.

Page Three

Information on page three of the school and district report card facilitates understanding of the school's and district's program and operations. This information is identified as the School or District Profile. Information on this page should include the following:

- ❑ Designation of the title as "SCHOOL OR DISTRICT PROFILE Based on the School Year 2000-2001";
- ❑ A section identified as "INDICATORS OF SCHOOL [or CENTER or DISTRICT] PERFORMANCE";
- ❑ The section should be divided among three categories: Students, Staff and School Program;
- ❑ A table displaying information designated as indicators and displayed in Appendix D of this document. The table should contain five columns: The data elements, the calculation for "This School", the "Change from Last Year", the calculation for "Schools With Students Like Ours"; and the calculation for the "State";
- ❑ The "Change from Last Year" column should use phrasing such as No Change, an increase of --- , or a decrease of ---;

- ❑ A section identified as "SCHOOL OR DISTRICT FACTS";
- ❑ The section should be divided among three categories: Students, Staff, and School or District Program;
- ❑ A table displaying information designated as facts and displayed in Appendix D of this document. The table should contain five columns: The data elements, the calculation for "This School", the "Change from Last Year", the calculation for "Schools With Students Like Ours"; and the calculation for the "State";
- ❑ Within the School or District Program category, the area designated for a health education measure should include the statement: "This measure is under development";
- ❑ Within the School or District Program category and for elementary and middle schools, the area designated for a physical education measure should include the statement: "This measure is under development".

Page Four

On page four the principal and the School Improvement Council should provide the narrative detailing the accomplishments of the school and the barriers to be addressed in its efforts for higher levels of student achievement. The Superintendent should provide the narrative for the district report card. Other information related to judgements of the school climate, definitions of the ratings terminology, and, on the district card, information on South Carolina performance on national measures are also provided.

Specifically the page should provide the following:

- ❑ At least three-fourths of the page should be available for the narrative to be labeled: "Principal's/School Improvement Council Report" or "District Superintendent's Report";
- ❑ A section on the bottom one-fourth of the page should be titled, "EVALUATIONS BY STUDENTS AND TEACHERS";
- ❑ The section should include a statement to read, "This information is based upon surveys of students and teachers at the school. A survey for parents is under development";
- ❑ The section should include evaluations by teachers and students (and parents beginning in 2002) in three areas: percent satisfied with the learning environment; percent satisfied with the social and physical environment; and percent satisfied with home-school relations;
- ❑ District Report Card: A table displaying "South Carolina's Performance on National Measures" should be displayed. These scores are based on a sample of students at selected grade levels. Included in this table are state results on the following assessments: 1.) Terra Nova Survey Test (grade levels tested, state and national average), Median Percentile Rank; 2.) NAEP, Percentage Scoring in Each Category (sub test, grade level, advanced, proficient, basic, below basic); 3.) SAT/ACT for High School Graduating Seniors (verbal, math, composite with district average, state average and national average comparisons)
- ❑ Definitions of the Critical Terms; that is, the meaning of each school or district rating category.

Section VII SYSTEM SAFEGUARDS

Ratings Impact

The State Department of Education conducts procedures to ensure that student performance on the PACT is measured properly and that accurate data are collected. Data used to rate schools and districts should undergo routine screening before and after the release of accountability ratings. The Education Oversight Committee bears responsibility for the annual review to determine the utilization of the report card and the impact of the accountability system on student, school and district performance.

Serious Data Problems

If data problems of sufficient magnitude to question the validity of any accountability rating are uncovered, then the SDE should take one or more of the following steps after consulting with the district:

- ☐ Attempts will be made to rectify the data problems within the accountability calendar.
- ☐ If the problem cannot be resolved by the rating release date, then:

A *delayed* rating may be issued; OR

If the problem pertains to assessment data, ratings may be determined using assessment results for "all students tested".

Ratings Changes

The State Department of Education may change ratings of schools and districts after November 1 if problems in the data used to determine the ratings subsequently are discovered.

Analyses Undertaken Prior to the Release of Ratings

Analyses to examine data reasonableness are undertaken prior to applying accountability system criteria. The State Department of Education and the Division of Accountability should analyze current year accountability information to include: the percent of test takers at each school; excessive numbers of students having modified or alternate test forms; excessive absences during testing; unusual increases in percentage of students with disabilities; excessive rates of student mobility; and unusual changes in indicator or fact data. Secondly, the testing contractor for the student assessment program should notify the SDE of potential data problems for a school district. The school district is contacted by the State Department of Education of potential data problems for a school district.

The State Department of Education is responsible for the data collection and printing of the annual school and district report cards. Their work includes analyses checking for incomplete results or data, inconsistency with assessment results and other anomalies.

Questions

Inquiries concerning the analyses prior to the release of the ratings should be directed to the State Department of Education.

Analyses Undertaken After the Release of Ratings

The Education Oversight Committee assumes responsibility for annual and longitudinal reviews of the accountability system.

The Annual Reviews shall address the following:

- ❑ The format and readability of the school and district report card;
- ❑ Public and professional access to the report card and their use of it;
- ❑ Patterns within the data reported;
- ❑ Identification of potential data sources to increase understanding of school processes and results;
- ❑ Accuracy in data reporting and analyses;
- ❑ Study of the performance of subgroups of the student population; and
- ❑ Other elements as identified by policymakers.

The Longitudinal reviews of the accountability system shall address the following:

- ❑ Use and misuse of the system;
- ❑ Intended and unintended consequences;
- ❑ Validity of the ratings methodologies and categorical definitions;
- ❑ Impact of the system on student, school, district and state performance;
- ❑ Other studies as identified by policymakers.

Section VIII LOCAL RESPONSIBILITIES

Public notification of accountability results and utilization in school and district improvement efforts are governed by multiple statutory requirements. These are described in this section. The text of the statutes is provided in Appendix A.

Report Card Narrative

The principal, in conjunction with the School Improvement Council, must write an annual narrative of a school's progress in order to further inform parents and the community about the school and its operation. The narrative must cite factors or activities supporting progress and barriers that inhibit progress.

Distribution of the Report Card

The school's report card must be furnished to parents and the public no later than November 15th. The report card must be mailed to all parents of the school and the school district (for the district report card) [Note: the means of distribution of the report card may be changed pending changes to the current appropriations act]. The school, in conjunction with the district board, must also inform the community of the school's report card by advertising the results in at least one South Carolina daily newspaper of general circulation in the area. This notice must be published within ninety days of receipt of the report cards from the State Department of Education and must be a minimum of two columns by ten inches (four and one-half by ten inches) with at least a twenty-four point bold headline.

Development of Local Accountability Systems

Each district board of trustees must establish and annually review a performance based accountability system, or modify its existing system, to reinforce the state accountability system. Parents, teachers and principals must be involved in the development, annual review and revisions of the accountability system established by the district.

This accountability system must be developed in accordance with regulations of the State Board of Education.

Annual school improvement reports must be provided to parents on or by February 1.

Intervention and Assistance

When a school or district receives a rating of Below Average or Unsatisfactory, the school must undertake the actions outlined in §59-18-1500 through 1590. These statutes establish the basis for improvement, assistance and intervention and should be developed with the support of the State Department of Education.

Opportunities for Data Correction

Each data source for information published on the annual school or district report card has a prescribed process and calendar for collecting the information. The accuracy of ratings, recognitions, report cards and other reports is in large measure dependent on the accuracy of the information submitted. Districts are responsible for submitting all data with the exception of testing results that are transmitted by the testing companies. The opportunities for correction of data are specified by the State Department of Education.

Section IX PREVIEW OF THE 2001-2002 ACCOUNTABILITY SYSTEM

System Evolution

From its inception, the accountability system was designed to evolve over time to encourage higher levels of student performance, incorporate additional information, meet statutory requirements as quickly as possible, and improve the information with which accountability decisions are made.

In order to provide schools and districts with adequate time to prepare for the rigor of the standards, this section presents a preview of how the accountability system is expected to evolve over the next few years.

Assumptions for Change

Additions and/or modifications of the state assessment system may require modifications of the ratings calculations. Assessments in science for students in grades three through eight, the revised exit examination, and the addition of end-of--course tests at the high school level will be added in future years. High school graduation performance will be added to the ratings criteria in 2003.

What is Expected to Stay the Same through the 2002 Report Card

- ❑ The ratings categories;
- ❑ The use of disaggregated student groups;
- ❑ PACT results for accountability purposes based upon the 45th day membership;
- ❑ Provisions for small numbers of students;
- ❑ Statutory recognitions based on the performance results.

Planning for the Future

The outline in this section presents data elements that are to be added over the next several years. These include the following:

- ❑ Physical education program standard for middle and elementary schools-This data element is linked to a project of SCAPHERD and is to be utilized as teachers become familiar with the program review criteria;
- ❑ Health education program standard-The intent of the Education Oversight Committee is to incorporate a health education program standard that is acceptable to health educators and readily collectable;
- ❑ Evaluations by parents-The intent of the Education Oversight Committee is to contract with an outside agency to develop a parent survey and design a methodology to collect evaluations of the school from parents in a manner that obtains a representative sample of parents;
- ❑ Science and social studies assessments are to be added to the PACT program for grades three through eight;
- ❑ A revised exit examination is to replace the BSAP exit exam now used;
- ❑ End-of-course assessments are to be added for selected high school credit courses as they are developed by the State Department of Education;

- ❑ Information on the early childhood professional preparation of teachers and on the classroom environments in schools only enrolling students in grades two or below will be added in 2004;
- ❑ The inclusion of the performance of subgroups of students in the performance rating will be studied;
- ❑ And other changes in response to changes in the statutory provisions.

Section X ADDITIONAL INFORMATION

Calendar for 2001-2002

2001

March	2001 Exit Examination administration; Review of Accountability Manual (and any proposed changes)
April/May	2001 PACT administration
Summer	Review of 2001 PACT performance, Exit Exam administration results District superintendents submit questions regarding school or district data calculations
First Day of School Year	Request for program unit to receive report card
November 1	SDE distribution of school and district report cards to schools and districts
November 15	Distribution of school and district report cards to parents and community members
Within 90 days	Publication of notice about report cards in area newspapers

APPENDIX A

The Education Accountability Act of 1998 (As Amended in 2001)

The language shown in **bold type** refers to requirements for the annual school and district report cards, use of the ratings and evaluation of public education programs, including the accountability system.

AN ACT TO AMEND CHAPTER 18 OF TITLE 59, CODE OF LAWS OF SOUTH CAROLINA, 1976, RELATING TO QUALITY CONTROLS AND PRODUCTIVITY REWARDS, SO AS TO ENACT THE SOUTH CAROLINA EDUCATION ACCOUNTABILITY ACT OF 1998 TO ESTABLISH STATEWIDE ACADEMIC ACHIEVEMENT STANDARDS AND ASSESSMENTS OF THOSE STANDARDS FOR SCHOOLS, TO PROVIDE ANNUAL REPORT CARDS FOR SCHOOLS WITH A PERFORMANCE INDICATOR SYSTEM, TO REQUIRE DISTRICTS TO ESTABLISH LOCAL ACCOUNTABILITY SYSTEMS, TO PROVIDE SPECIFIED RESOURCES TO IMPROVE STUDENT PERFORMANCE AND TEACHER AND STAFF DEVELOPMENT AND ASSISTANCE, AND TO PROVIDE FOR THE IMPLEMENTATION AND OVERSIGHT OF THE ABOVE PROVISIONS; TO ADD SECTION 59-24-5 SO AS TO PROVIDE FOR LEGISLATIVE FINDINGS IN REGARD TO SCHOOL PRINCIPALS AND THEIR PROFESSIONAL DEVELOPMENT; TO AMEND SECTIONS 59-24-10, 59-24-30, BOTH AS AMENDED, AND 59-24-50, RELATING TO ASSESSMENT OF AND DEVELOPMENT PLANS FOR SCHOOL ADMINISTRATORS, SO AS TO FURTHER PROVIDE FOR SUCH ASSESSMENTS AND DEVELOPMENT PLANS; TO ADD SECTION 59-24-80 SO AS TO PROVIDE FOR A FORMAL INDUCTION PROGRAM FOR FIRST-YEAR PRINCIPALS; TO ADD SECTION 59-24-15 SO AS TO PROVIDE THAT CERTIFIED EDUCATION PERSONNEL WHO ARE EMPLOYED AS ADMINISTRATORS ON AN ANNUAL OR MULTI-YEAR CONTRACT WILL RETAIN THEIR RIGHTS AS A TEACHER UNDER APPLICABLE EMPLOYMENT, DISMISSAL, AND OTHER PROCEDURES BUT NO SUCH RIGHTS ARE GRANTED TO THE POSITION OR SALARY OF ADMINISTRATOR, AND TO PROVIDE THAT ANY SUCH ADMINISTRATOR WHO PRESENTLY IS UNDER A CONTRACT GRANTING SUCH RIGHTS SHALL RETAIN THAT STATUS UNTIL THE EXPIRATION OF THAT CONTRACT; TO AMEND SECTION 59-6-10, RELATING TO THE SELECT COMMITTEE TO OVERSEE THE EIA, SO AS TO CHANGE THE NAME OF THE COMMITTEE TO THE EDUCATION OVERSIGHT COMMITTEE, TO REVISE THE MEMBERSHIP OF THE COMMITTEE AND THE MANNER IN WHICH ITS MEMBERS ARE SELECTED, AND TO REVISE ITS DUTIES AND FUNCTIONS INCLUDING A REQUIREMENT THAT IT REVIEW AND MONITOR THE EDUCATION ACCOUNTABILITY ACT OF 1998; TO ADD SECTIONS 59-6-100, 59-6-110, AND 59-6-120 SO AS TO ESTABLISH AN ACCOUNTABILITY DIVISION WITHIN THE EDUCATION OVERSIGHT COMMITTEE AND PROVIDE FOR ITS DUTIES, FUNCTIONS, AND RESPONSIBILITIES, TO PROVIDE THAT THE EDUCATION OVERSIGHT COMMITTEE SHALL APPOINT A TASK FORCE TO REVIEW CURRENT STATE PROGRAMS AND POLICIES FOR PARENT PARTICIPATION IN THEIR CHILDREN'S EDUCATION; TO AMEND SECTION 59-29-10, RELATING TO REQUIRED SUBJECTS OF INSTRUCTION, SO AS TO REQUIRE INSTRUCTION IN PHONICS; TO ADD SECTION 59-63-65 SO AS TO PROVIDE THAT SCHOOL DISTRICTS WHICH CHOOSE TO REDUCE CLASS SIZE IN GRADES ONE THROUGH THREE TO A PUPIL-TEACHER RATIO OF FIFTEEN TO ONE SHALL BE ELIGIBLE FOR CERTAIN STATE FUNDING, AND TO PROVIDE FOR THE IMPLEMENTATION OF THESE PROVISIONS INCLUDING A PROVISION ALLOWING PORTABLE OR TEMPORARY FACILITIES TO BE USED FROM FUNDING DERIVED FROM THE CHILDREN'S EDUCATION ENDOWMENT FUND, TO REQUIRE THE DEPARTMENT OF EDUCATION TO PROVIDE A COPY OF THIS ACT TO EVERY DISTRICT SCHOOL SUPERINTENDENT AND SCHOOL PRINCIPAL IN THIS STATE; TO REPEAL SECTION 59-6-12 RELATING TO CERTAIN DUTIES AND RESPONSIBILITIES OF THE SELECT COMMITTEE; AND TO REPEAL SECTIONS 59-18-10, 59-18-11, 59-18-15, 59-18-20, 59-18-25, 59-18-30, AND 59-18-31 RELATING TO SCHOOL QUALITY CONTROLS AND PRODUCTIVITY.

Be it enacted by the General Assembly of the State of South Carolina:

Citation

SECTION 1. This act will be known and may be cited as the "South Carolina Education Accountability Act of 1998".

Education Accountability Act of 1998

SECTION 2. Chapter 18, Title 59 of the 1976 Code is amended to read:

"CHAPTER 18
Education Accountability Act of 1998
Article 1
General Provisions

Section 59-18-100. The General Assembly finds that South Carolinians have a commitment to public education and a conviction that high expectations for all students are vital components for improving academic achievement. It is the purpose of the General Assembly in this chapter to establish a performance based accountability system for public education which focuses on improving teaching and learning so that students are equipped with a strong academic foundation. Accountability, as defined by this chapter, means acceptance of the responsibility for improving student performance and taking actions to improve classroom practice and school performance by the Governor, the General Assembly, the State Department of Education, colleges and universities, local school boards, administrators, teachers, parents, students, and the community.

Section 59-18-110. The system is to:

(1) use academic achievement standards to push schools and students toward higher performance by aligning the state assessment to those standards and linking policies and criteria for performance standards, accreditation, reporting, school rewards, and targeted assistance;

(2) provide an annual report card with a performance indicator system that is logical, reasonable, fair, challenging, and technically defensible which furnishes clear and specific information about school and district academic performance and other performance to parents and the public;

(3) require all districts to establish local accountability systems to stimulate quality teaching and learning practices and target assistance to low performing schools;

(4) provide resources to strengthen the process of teaching and learning in the classroom to improve student performance and reduce gaps in performance;

(5) support professional development as integral to improvement and to the actual work of teachers and school staff; and

(6) expand the ability to evaluate the system and to conduct in-depth studies on implementation, efficiency, and the effectiveness of academic improvement efforts.

Section 59-18-120. As used in this chapter:

(1) 'Oversight Committee' means the Education Oversight Committee established in Section 59-6-10.

(2) 'Standards based assessment' means an assessment where an individual's performance is compared to specific performance standards and not to the performance of other students.

(3) 'Disaggregated data' means data broken out for specific groups within the total student population, such as by race, gender, and family income level.

(4) 'Longitudinally matched student data' means examining the performance of a single student or a group of students by considering their test scores over time.

(5) 'Norm-referenced assessment' means assessments designed to compare student performance to a nationally representative sample of similar students known as the norm group.

(6) 'Academic achievement standards' means statements of expectations for student learning.

(7) 'Department' means the State Department of Education.

(8) 'Absolute performance' means the rating a school will receive based on the percentage of students meeting standard on the state's standards based assessment.

(9) 'Improvement performance' means the rating a school will receive based on longitudinally matched student data comparing current performance to the previous year's for the purpose of determining student academic growth.

(10) 'Objective and reliable statewide assessment' means assessments which yield consistent results and which measure the cognitive knowledge and skills specified in the state-approved academic standards and does not include questions relative to personal opinions, feelings, or attitudes and is not biased with regard to race, gender, or socioeconomic status. It is not intended that the assessments be limited to true/false or multiple choice questions.

(11) 'Division of Accountability' means the special unit within the oversight committee established in Section 59-6-100.

Article 3

Academic Standards and Assessments

Section 59-18-300. The State Board of Education is directed to adopt grade specific performance-oriented educational standards in the core academic areas of mathematics, English/language arts, social studies (history, government, economics, and geography), and science for kindergarten through twelfth grade and for grades nine through twelve adopt specific academic standards for benchmark courses in mathematics, English/language arts, social studies, and science. The standards are to promote the goals of providing every student with the competencies to:

(1) read, view, and listen to complex information in the English language;

(2) write and speak effectively in the English language;

(3) solve problems by applying mathematics;

- (4) conduct research and communicate findings;
- (5) understand and apply scientific concepts;
- (6) obtain a working knowledge of world, United States, and South Carolina history, government, economics, and geography; and
- (7) use information to make decisions.

The standards must be reflective of the highest level of academic skills with the rigor necessary to improve the curriculum and instruction in South Carolina's schools so that students are encouraged to learn at unprecedented levels and must be reflective of the highest level of academic skills at each grade level.

Section 59-18-310. (A) Notwithstanding any other provision of law, the State Board of Education, through the Department of Education, is required to develop or adopt a statewide assessment program to measure student performance on state standards and:

- (1) identify areas in which students need additional support;**
- (2) indicate the academic achievement for schools, districts, and the State; and**
- (3) satisfy federal reporting requirements.**

All assessments required to be developed or adopted under the provisions of this section or chapter must be objective and reliable.

(B) The statewide assessment program in the four academic areas shall include grades three through eight, an exit examination which is to be first administered in grade ten, and end of course tests for gateway courses in English/language arts, mathematics, science, and social studies for grades nine through twelve.

(C) While assessment is called for in the specific areas mentioned above, this should not be construed as lessening the importance of foreign languages, visual and performing arts, health, physical education, and career/occupational programs.

Section 59-18-320. (A) After the first statewide field test of the assessment program in each of the four academic areas, and after the field tests of the end of course assessments of benchmark courses, the Education Oversight Committee, established in Section 59-6-10, will review the state assessment program and the course assessments for alignment with the state standards, level of difficulty and validity, and for the ability to differentiate levels of achievement, and will make recommendations for needed changes, if any. The review will be provided to the State Board of Education, the State Department of Education, the Governor, the Senate Education Committee, and the House Education and Public Works Committee as soon as feasible after the field tests. The Department of Education will then report to the Education Oversight Committee no later than one month after receiving the reports on the changes made to the assessments to comply with the recommendations.

(B) After review and approval by the Education Oversight Committee, the standards based assessment of mathematics, English/language arts, social studies, and science will be administered to all public school students to include those students as required by the 1997 reauthorization of the Federal Individuals with Disabilities Education Act and by Title 1 at the end of grades three through eight. The exit

examination in these four academic areas will be administered for the first time at the end of grade ten. For students with documented disabilities, the assessments developed by the Department of Education shall include the appropriate modifications and accommodations with necessary supplemental devices as outlined in a student's Individualized Education Program and as stated in the Administrative Guidelines and Procedures for Testing Students with Documented Disabilities.

(C) After review and approval by the Education Oversight Committee, the end of course assessments of benchmark courses will be administered to all public school students as they complete each benchmark course.

(D) Any new standards and assessments required to be developed and adopted by the State Board of Education, through the Department of Education, must be developed and adopted upon the advice and consent of the Education Oversight Committee.

Section 59-18-330. The State Board of Education, through the State Department of Education, shall develop, select, or adapt a first grade readiness test which is linked to the adopted grade one academic standards and a second grade readiness test which is linked to the adopted grade two academic standards. The first administration of this test must occur no later than the 2000-2001 school year. **The purpose of the tests is to measure individual student readiness, and they are not to be used as an accountability measure at the state level. However, the grade two readiness test will serve as the baseline for grade three assessment.**

Section 59-18-340. The State Board of Education, following the recommendations of the Accountability Division of the Education Oversight Committee, is directed to select a norm referenced test to obtain an indication of student and school performance relative to national performance levels. The test must be administered annually to a statistically valid random sample of students in at least three grades from grades three through eleven. The Oversight Committee shall determine an appropriate sampling plan for the norm referenced test that must be administered beginning in the 1998-1999 school year.

Section 59-18-350. High schools shall offer state-funded PSAT or PLAN tests to each tenth grade student in order to assess and identify curricular areas that need to be strengthened and re-enforced. Schools and districts shall use these assessments as diagnostic tools to provide academic assistance to students whose scores reflect the need for such assistance. Schools and districts shall use these assessments to provide guidance and direction for parents and students as they plan for postsecondary experiences.

Section 59-18-360. The State Board of Education, in consultation with the Education Oversight Committee, shall provide for a cyclical review by academic area of the state standards and assessments to ensure that the standards and assessments are maintaining high expectations for learning and teaching. All academic areas must be initially reviewed by the year 2005. At a minimum, each academic area should be reviewed and updated every four years. After each academic area is reviewed, a report on the recommended revisions must be presented to the Education Oversight Committee for its consideration. After approval by the Education Oversight Committee, the recommendations may be implemented. As a part of the review, a task force of parents, business and industry persons, community leaders, and educators, to include special education teachers, must examine the standards and assessment system to determine rigor and relevancy.

Section 59-18-370. The Department of Education is directed to provide assessment results annually on individual students and schools in a manner and format that is easily understood by

parents and the public. In addition, the school assessment results must be presented in a format easily understood by the faculty and in a manner that is useful for curriculum review and instructional improvement. The department is to provide longitudinally matched student data from the standards based assessments and include information on the performance of subgroups of students within the school. The department must work with the Division of Accountability in developing the formats of the assessment results. Schools and districts shall be responsible for disseminating this information to parents.

Article 5 Academic Plans for Students

Section 59-18-500. (A) Beginning in 1998-99 and annually thereafter, at the beginning of each school year, the school must notify the parents of the need for a conference for each student in grades three through eight who lacks the skills to perform at his current grade level based on assessment results, school work, or teacher judgment. At the conference, the student, parent, and appropriate school personnel will discuss the steps needed to ensure student success at the next grade level. An academic plan will be developed to outline additional services the school and district will provide and the actions the student and the parents will undertake to further student success.

(B) The participants in the conference will sign off on the academic plan, including any requirement for summer school attendance. Should a parent, after attempts by the school to schedule the conference at their convenience, not attend the conference, the school will appoint a school mentor, either a teacher or adult volunteer, to work with the student and advocate for services. A copy of the academic plan will be sent to the parents by certified mail.

(C) At the end of the school year, the student's performance will be reviewed by appropriate school personnel. If the student's work has not been at grade level or if the terms of the academic plan have not been met, the student may be retained or he may be required to attend summer school for promotion. If there is a compelling reason why the student should not be required to attend summer school or be retained, the parent or student may appeal to a district review panel.

(D) At the end of summer school, a district panel will review the student's progress and report to the parents whether the student's academic progress indicates readiness to achieve grade level standards for the next grade. If the student is not at grade level or the student's assessment results show standards are not met, the student will be placed on academic probation. A conference of the student, parents, and appropriate school personnel will revise the academic plan to address academic difficulties. At the conference it must be stipulated that academic probation means if either school work is not up to grade level or if assessment results again show standards are not met, the student will be retained. The district's appeals process remains in effect.

(E) Each district board of trustees will establish policies on academic conferences, individual student academic plans, and district level reviews. Information on these policies must be given to every student and parent. Each district is to monitor the implementation of academic plans as a part of the local accountability plan. Districts are to use Act 135 of 1993 academic assistance funds to carry out academic plans, including required summer school attendance. Districts' policies regarding retention of students in grades one and two remain in effect.

(F) The State Board of Education, working with the Oversight Committee, will establish guidelines until regulations are promulgated to carry out this section. **The State Board of Education,**

working with the Accountability Division, will promulgate regulations requiring the reporting of the number of students retained at each grade level, the number of students on probation, number of students retained after being on probation, and number of students removed from probation. This data will be used as a performance indicator for accountability.

Article 7
Materials and Accreditation

Section 59-18-700. The criteria governing the adoption of instructional materials shall be revised by the State Board of Education to require that the content of such materials reflect the substance and level of performance outlined in the grade specific educational standards adopted by the state board.

Section 59-18-710. By November, 2000, the State Board of Education, working with the Department of Education and recommendations from the Accountability Division, must promulgate regulations outlining the criteria for the state's accreditation system which must include student academic performance.

Article 9
Reporting

Section 59-18-900. (A) The Education Oversight Committee, working with the State Board of Education, is directed to establish an annual report card and its format to report on the performance for the individual elementary, middle, high schools, and school districts of the State. The school's ratings on academic performance must be emphasized and an explanation of their significance for the school and the district must also be reported. The annual report card must serve at least four purposes:

- (1) inform parents and the public about the school's performance;**
- (2) assist in addressing the strengths and weaknesses within a particular school;**
- (3) recognize schools with high performance; and**
- (4) evaluate and focus resources on schools with low performance.**

(B) The Oversight Committee shall determine the criteria for and establish five academic performance ratings of excellent, good, average, below average, and unsatisfactory. Schools and districts shall receive a rating for absolute and improvement performance. Only the scores of students enrolled in the school at the time of the forty-five-day enrollment count shall be used to determine the absolute and improvement ratings. The Oversight Committee shall establish student performance indicators which will be those considered to be useful for assessing a school's overall performance and appropriate for the grade levels within the school.

(C) In setting the criteria for the academic performance ratings and the performance indicators, the Education Oversight Committee shall report the performance by subgroups of students in the school and schools similar in student characteristics. Criteria must use established guidelines for statistical analysis and build on current data-reporting practices.

(D) The report card must include a comprehensive set of performance indicators with information on comparisons, trends, needs, and performance over time which is helpful to parents and the public in evaluating the school. Special efforts are to be made to ensure that the information contained in the report cards is provided in an easily understood manner and a reader friendly format. This information should also provide a context for the performance of the school. Where appropriate, the data should yield disaggregated results to schools and districts in planning for improvement. The report card should include information in such areas as programs and curriculum, school leadership, community and parent support, faculty qualifications, evaluations of the school by parents, teachers, and students. In addition, the report card must contain other criteria including, but not limited to, information on promotion and retention ratios, disciplinary climate, dropout ratios, student and teacher ratios, and attendance data.

(E) The principal, in conjunction with the School Improvement Council established in Section 59-20-60, must write an annual narrative of a school's progress in order to further inform parents and the community about the school and its operation. The narrative must cite factors or activities supporting progress and barriers which inhibit progress. The school's report card must be furnished to parents and the public no later than November fifteenth.

Section 59-18-910. No later than June 1, 1999, the Accountability Division must report on the development of the performance indicators criteria and the report card to the Education Oversight Committee and the State Board of Education. A second report, to include uniform collection procedures for academic standards and performance indicators, is due by September 1, 1999. No later than September, 1999, the State Department of Education shall report to the Oversight Committee the determination of the levels of difficulty for the assessments by grade and academic area. By March 1, 2000, a report on the development of baseline data for the schools is due from the division.

Section 59-18-920. Charter schools established pursuant to Chapter 40, Title 59 will receive a performance rating and must issue a report card to parents and the public containing the rating and explaining its significance and providing other information similar to that required of other schools in this section. Alternative schools are included in the requirements of this chapter; however, the purpose of such schools must be taken into consideration in determining their performance rating. The Education Oversight Committee, working with the State Board of Education and the School to Work Advisory Council, will develop a report card for vocational schools.

Section 59-18-930. Beginning in 2001 and annually thereafter the State Department of Education must issue report cards to all schools and districts of the State no later than November first. The report card must be mailed to all parents of the school and the school district. The school, in conjunction with the district board, must also inform the community of the school's report card by advertising the results in at least one South Carolina daily newspaper of general circulation in the area. This notice must be published within ninety days of receipt of the report cards issued by the State Department of Education and must be a minimum of two columns by ten inches (four and one-half by ten inches) with at least a twenty-four point bold headline.

Section 59-18-1100. The State Board of Education, working with the division and the Department of Education, must establish the Palmetto Gold and Silver Awards Program to recognize and reward schools for academic achievement. Awards will be established for schools attaining high levels of absolute performance and for schools attaining high rates of improvement. The award program must base improved performance on longitudinally matched student data and may include such additional criteria as:

- (1) student attendance;
- (2) teacher attendance;
- (3) student dropout rates; and
- (4) any other factors promoting or maintaining high levels of achievement and performance.

Schools shall be rewarded according to specific criteria established by the division. In defining eligibility for a reward for high levels of performance, student performance should exceed expected levels of improvement. The State Board of Education shall promulgate regulations to ensure districts of the State utilize these funds to improve or maintain exceptional performance according to their school's plans established in Section 59-139-10. Funds may be utilized for professional development support.

Special schools for the academically talented are not eligible to receive an award pursuant to the provisions of this section unless they have demonstrated improvement and high absolute achievement for three years immediately preceding.

Section 59-18-1110. (A) Notwithstanding any other provision of law, a school is given the flexibility of receiving exemptions from those regulations and statutory provisions governing the defined program provided that, during a three-year period, the following criteria are satisfied:

(1) the school has twice been a recipient of a Palmetto Gold or Silver Award, pursuant to Section 59-18-1100;

(2) the school has met annual improvement standards for subgroups of students in reading and mathematics; and

(3) the school has exhibited no recurring accreditation deficiencies.

(B) Schools receiving flexibility status are released from those regulations and statutory provisions referred to above including, but not limited to, regulations and statutory provisions on class scheduling, class structure, and staffing. The State Board of Education in consultation with the Education Oversight Committee must promulgate regulations and develop guidelines for providing this flexibility by December 1, 2001.

(C) To continue to receive flexibility pursuant to this section, a school must annually exhibit school improvement at or above the state average as computed in the school recognition program pursuant to Section 59-18-1100 and must meet the gains required for subgroups of students in reading and mathematics. A school which does not requalify for flexibility status due to extenuating circumstances may apply to the State Board of Education for an extension of this status for one year.

(D) In the event that a school is removed from flexibility status, the school is not subject to regulations and statutory provisions exempted under this section until the beginning of the school year following notification of the change in status by the State Department of Education. Subsequent monitoring by the State Department of Education in a school that is removed from

flexibility status shall not include a review of program records exempted under this section for the period that the school has received flexibility status or for the school year during which the school was notified of its removal from flexibility status.

Section 59-18-1120. (A) Notwithstanding any other provision of law, a school designated as unsatisfactory while in such status is given the flexibility of receiving exemptions from those regulations and statutory provisions governing the defined program or other State Board of Education regulations, dealing with the core academic areas as outlined in Section 59-18-120, provided that the review team recommends such flexibility to the State Board of Education.

(B) Other schools may receive flexibility when their strategic plan explains why such exemptions are expected to improve the academic performance of the students and the plan meets the approval by the State Board of Education. To continue to receive flexibility pursuant to this section, a school must annually exhibit overall school improvement as outlined in its revised plan and must meet the gains set for subgroups of students in reading and mathematics. A school which does not requalify for flexibility status due to extenuating circumstances may apply to the State Board of Education for an extension of this status for one year according to the provisions of Section 59-18-1110(D).

Article 13 District Accountability Systems

Section 59-18-1300. The State Board of Education, based on recommendations of the division, must develop regulations requiring that no later than August, 1999, each district board of trustees must establish and annually review a performance based accountability system, or modify its existing accountability system, to reinforce the state accountability system. Parents, teachers, and principals must be involved in the development, annual review, and revisions of the accountability system established by the district. The board of trustees shall ensure that a district accountability plan be developed, reviewed, and revised annually. In order to stimulate constant improvement in the process of teaching and learning in each school and to target additional local assistance for a school when its students' performance is low or shows little improvement, the district accountability system must build on the district and school activities and plans required in Section 59-139-10. In keeping with the emphasis on school accountability, principals should be actively involved in the selection, discipline, and dismissal of personnel in their particular school. The date the school improvement reports must be provided to parents is changed to February first. Until such time as regulations pursuant to this section become effective, school district accountability systems must be developed, adopted, and implemented in accordance with State Board of Education guidelines.

The Department of Education shall offer technical support to any district requesting assistance in the development of an accountability plan. Furthermore, the department must conduct a review of accountability plans as part of the peer review process required in Section 59-139-10(H) to ensure strategies are contained in the plans that shall maximize student learning. The department shall submit plans for the peer review process to the division for approval by August, 1999. School districts not having an approved plan by August 1, 1999, shall be provided a plan by the department within ninety days.

Article 15 Intervention and Assistance

Section 59-18-1500. (A) When a school receives a rating of below average or unsatisfactory, the following actions must be undertaken by the school, the district, and the board of trustees:

(1) The faculty of the school with the leadership of the principal must review its improvement plan and revise it with the assistance of the school improvement council established in Section 59-20-60. The revised plan should look at every aspect of schooling, and must outline activities that, when implemented, can reasonably be expected to improve student performance and increase the rate of student progress. The plan should provide a clear, coherent plan for professional development, which has been designed by the faculty, that is ongoing, job related, and keyed to improving teaching and learning. A time line for implementation of the activities and the goals to be achieved must be included.

(2) Once the revised plan is developed, the district superintendent and the local board of trustees shall review the school's strategic plan to determine if the plan focuses on strategies to increase student academic performance. Once the district board has approved the plan, it must delineate the strategies and support the district will give the plan.

(3) After the approval of the revised plan, the principals' and teachers' professional growth plans, as required by Section 59-26-40 and Section 59-24-40, should be reviewed and amended to reflect the professional development needs identified in the revised plan and must establish individual improvement criteria on the performance dimensions for the next evaluation.

(4) The school, in conjunction with the district board, must inform the parents of children attending the school of the ratings received from the State Board of Education and must outline the steps in the revised plan to improve performance, including the support which the board of trustees has agreed to give the plan. This information must go to the parents no later than February first. This information must also be advertised in at least one South Carolina daily newspaper of general circulation in the area. This notice must be published within ninety days of receipt of the report cards issued by the State Department of Education and must be a minimum of two columns by ten inches (four and one-half by ten inches) with at least a twenty-four point bold headline. The notice must include the following information: name of school district, name of superintendent, district office telephone number, name of school, name of principal, telephone number of school, school's absolute performance rating and improvement performance rating on student academic performance, and strategies which must be taken by the district and school to improve student performance; and

(5) Upon a review of the revised plan to ensure it contains sufficiently high standards and expectations for improvement, the Department of Education is to delineate the activities, support, services, and technical assistance it will make available to support the school's plan and sustain improvement over time. Schools meeting the criteria established pursuant to Section 59-18-1560 will be eligible for the grant programs created by that section.

Section 59-18-1510. (A) When a school receives a rating of unsatisfactory or upon the request of a school rated below average, an external review team must be assigned by the Department of Education to examine school and district educational programs, actions, and activities. The Education Oversight Committee, in consultation with the State Department of Education, shall develop the criteria for the identification of persons to serve as members of an external review team which shall include representatives from selected school districts, respected retired educators, State Department of Education staff, higher education representatives, parents from the district, and business representatives.

(B) The activities of the external review committee may include:

(1) examine all facets of school operations, focusing on strengths and weaknesses, determining the extent to which the instructional program is aligned with the content standards, and

recommendations which draw upon strategies from those who have been successful in raising academic achievement in schools with similar student characteristics;

(2) consult with parents, community members, and members of the School Improvement Council to gather additional information on the strengths and weaknesses of the school;

(3) identify personnel changes, if any, that are needed at the school and/or district level and discuss such findings with the board;

(4) work with school staff, central offices, and local boards of trustees in the design of the school's plan, implementation strategies, and professional development training that can reasonably be expected to improve student performance and increase the rate of student progress in that school;

(5) identify needed support from the district, the State Department of Education, and other sources for targeted long-term technical assistance;

(6) report its recommendations, no later than three months after the school receives the designation of unsatisfactory to the school, the district board of trustees, and the State Board of Education; and

(7) report annually to the local board of trustees and state board over the next four years, or as deemed necessary by the state board, on the district's and school's progress in implementing the plans and recommendations and in improving student performance.

(C) Within thirty days, the Department of Education must notify the principal, the superintendent, and the district board of trustees of the recommendations approved by the State Board of Education. After the approval of the recommendations, the department shall delineate the activities, support, services, and technical assistance it will provide to the school. With the approval of the state board, this assistance will continue for at least three years, or as determined to be needed by the review committee to sustain improvement.

Section 59-18-1520. If the recommendations approved by the state board, the district's plan, or the school's revised plan is not satisfactorily implemented by the school rated unsatisfactory and its school district according to the time line developed by the State Board of Education or if student academic performance has not met expected progress, the principal, district superintendent, and members of the board of trustees must appear before the State Board of Education to outline the reasons why a state of emergency should not be declared in the school. The state superintendent, after consulting with the external review committee and with the approval of the State Board of Education, shall be granted the authority to take any of the following actions:

(1) furnish continuing advice and technical assistance in implementing the recommendations of the State Board of Education;

(2) declare a state of emergency in the school and replace the school's principal; or

(3) declare a state of emergency in the school and assume management of the school.

Section 59-18-1530. (A) Teacher specialists on site must be assigned in any of the four core academic areas to a middle or high school in an impaired district or designated as below average or unsatisfactory, if the review team so recommends and recommendation is approved by the State Board of Education. Teacher specialists on site must be assigned at a rate of one teacher for each grade level with a maximum of five to elementary schools in impaired districts or designated as below average or unsatisfactory. The Department of Education, in consultation with the Division of Accountability, shall develop a program for the identification, selection, and training of teachers with a history of exemplary student academic achievement to serve as teacher specialists on site. Retired educators may be considered for specialists.

(B) In order to sustain improvement and help implement the review team's recommendations, the specialists will teach and work with the school faculty on a regular basis throughout the

school year for up to three years, or as recommended by the review committee and approved by the state board. Teacher specialists must teach a minimum of three hours per day on average in team teaching or teaching classes. Teacher specialists shall not be assigned administrative duties or other responsibilities outside the scope of this section. The specialists will assist the school in gaining knowledge of best practices and well-validated alternatives, demonstrate effective teaching, act as coach for improving classroom practices, give support and training to identify needed changes in classroom instructional strategies based upon analyses of assessment data, and support teachers in acquiring new skills. School districts are asked to cooperate in releasing employees for full-time or part-time employment as a teacher specialist.

(C) To encourage and recruit teachers for assignment to below standard and unsatisfactory schools, those assigned to such schools will receive their salary and a supplement equal to fifty percent of the current southeastern average teacher salary as projected by the State Budget and Control Board, Office of Research and Analysis. The salary and supplement is to be paid by the State for three years.

(D) In order to attract a pool of qualified applicants to work in low-performing schools, the Education Oversight Committee, in consultation with the Leadership Academy of the South Carolina Department of Education, shall develop criteria for the identification, selection, and training of principals with a history of exemplary student academic achievement. Retired educators may be considered for principal specialists. A principal specialist may be hired for a school designated as unsatisfactory, if the district board of trustees chooses to replace the principal of that school. The principal specialist will assist the school in gaining knowledge of best practices and well-validated alternatives in carrying out the recommendations of the review team. The specialist will demonstrate effective leadership for improving classroom practices, assist in the analyses of assessment data, work with individual members of the faculty emphasizing needed changes in classroom instructional strategies based upon analyses of assessment data, and support teachers in acquiring new skills designed to increase academic performance. School districts are asked to cooperate in releasing employees for full-time or part-time employment as a principal specialist.

(E) In order to attract a pool of qualified principals to work in low-performing schools, the principal specialists hired in such schools will receive their salary and a supplement equal to 1.25 times the supplement amount calculated for teachers. The salary and supplement are to be paid by the State for two years.

(F) The supplements are to be considered part of the regular salary base for which retirement contributions are deductible by the South Carolina Retirement System pursuant to Section 9-1-1020. For the purpose of determining average final compensation as defined in Section 9-1-10, the supplement authorized in this section shall entitle a specialist to have added to their average final compensation at the time of retirement an amount not to exceed an additional forty-five days' pay, based on the specialist's regular annual compensation at their home school location. A specialist shall be entitled to fifteen days' pay, for the purposes of this section, for each year of service as a specialist on site. Principal and teacher specialists on site who are assigned to below average and unsatisfactory schools shall be allowed to return to employment with their previous district at the end of the contract period with the same teaching or administrative contract status as when they left but without assurance as to the school or supplemental position to which they may be assigned.

(G) For retired educators drawing benefits from the state retirement system who are serving in the capacity of principal or teacher specialist on site, the earnings limitations which restrict the amount of compensation that may be earned from covered employment while drawing benefits under the state retirement system do not apply to any compensation paid to them as an on-site

specialist not to exceed one year of such employment whether they are working directly for the school district or for some entity in this capacity. However, no further contributions may be made to the state retirement system related to this compensation and no additional retirement benefits or credits may be received or accrued.

(H) Within the parameters herein, the school district will have final determination on individuals who are assigned as teacher specialists and principal specialists.

Section 59-18-1540. Each principal continued in employment in schools in districts designated as impaired or in schools designated as below average or unsatisfactory must participate in a formal mentoring program with a principal. The Department of Education, working with the Education Oversight Committee, shall design the mentoring program and provide a stipend to those principals serving as mentors.

Section 59-18-1550. Each teacher employed in schools designated as below average or unsatisfactory who participate in the professional development activities and the improvement actions of the school which go beyond the normal school day and year may earn credits toward recertification according to the criteria established by the State Board of Education. To receive credit, activities must be based on identified professional development needs outlined in the school's improvement plan and must include at least one of the following:

- (1) summer institute with follow-up activities;
- (2) practice of new teaching strategies with peers regularly throughout the school year;
- (3) work with peer study groups during the academic year in planning lessons; and
- (4) observing and coaching regularly in one another's classrooms.

The activities must be approved by the Department of Education and the department shall determine the amount of credit earned by the participation.

Section 59-18-1560. (A) The State Board of Education, working with the Accountability Division and the Department of Education, must establish grant programs for schools designated as below average and for schools designated as unsatisfactory. A school designated as below average will qualify for a grant to undertake any needed retraining of school faculty and administration once the revised plan is determined by the State Department of Education to meet the criteria on high standards and effective activities. A school designated as unsatisfactory will qualify for the grant program after the State Board of Education approves its revised plan. A grant or a portion of a grant may be renewed annually over the next three years, if school and district actions to implement the revised plan continue. Should student performance not improve, any revisions to the plan must meet high standards prior to renewal of the grant. The revised plan must be reviewed by the district and board of trustees and the State Department of Education to determine what other actions, if any, need to be taken. A grant may be extended for up to an additional two years, if the State Board of Education determines it is needed to sustain academic improvement. The funds must be expended based on the revised plan and according to criteria established by the State Board of Education. Prior to extending any grant, the Accountability Division shall review school expenditures to make a determination of the effective use of previously awarded grant funds. If deficient use is determined, those deficiencies must be identified, noted, and corrective action taken before a grant extension will be given.

(B) The State Board of Education, working with the Department of Education and with the approval of the Education Oversight Committee, will develop guidelines outlining eligibility for the grant programs and methods of distributing funds which will be in effect until such time as the school ratings in Section 59-18-900(B) are implemented. In developing the eligibility guidelines, the board should consider criteria similar to that used in the former impaired district program. Until such time as regulations are promulgated, the funds shall be distributed on a per teacher basis for use only as outlined in the revised school plan.

(C) A public school assistance fund shall be established as a separate fund within the state general fund for the purpose of providing financial support to assist poorly performing schools. The fund may consist of grants, gifts, and donations from any public or private source or monies that may be appropriated by the General Assembly for this purpose. Income from the fund shall be retained in the fund. All funds may be carried forward from fiscal year to fiscal year. The State Treasurer shall invest the monies in this fund in the same manner as other funds under his control are invested. The State Board of Education, in consultation with the commission, shall administer and authorize any disbursements from the fund. The State Board of Education shall promulgate regulations to implement the provisions of this section.

Section 59-18-1570. (A) When a district receives a rating of below average, the State Superintendent, with the approval of the State Board of Education, shall appoint an external review committee to study educational programs in that district and identify factors affecting the performance of the district. The review committee must:

(1) examine all facets of school and district operations, focusing on strengths and weaknesses, determining the extent to which the instructional program is aligned with the content standards and shall make recommendations which draw upon strategies from those who have been successful in raising academic achievement in schools with similar student characteristics;

(2) consult with parents and community members to gather additional information on the strengths and weaknesses of the district;

(3) identify personnel changes, if any, that are needed at the school and/or district level and discuss such findings with the board;

(4) work with school staff, central offices, and local boards of trustees in the design of the district's plan, implementation strategies, and professional development training that can reasonably be expected to improve student performance and increase the rate of student progress in the district;

(5) identify needed support from the State Department of Education and other sources for targeted long-term technical assistance;

(6) report its recommendations, no later than three months after the district receives the designation of unsatisfactory, to the superintendent, the district board of trustees, and the State Board of Education; and

(7) report annually over the next four years to the local board of trustees and state board, or as deemed necessary by the state board, on the district's and school's progress in implementing the plans and recommendations and in improving student performance.

(B) Within thirty days, the Department of Education must notify the superintendent and the district board of trustees of the recommendations approved by the State Board of Education. Upon the approval of the recommendations, the Department of Education must delineate the

activities, support, services, and technical assistance it will provide to support the recommendations and sustain improvement over time. The external review committee must report annually to the local board of trustees and the state board over the next four years, or as deemed necessary by the state board, on the district's progress in implementing the recommendations and improving student performance.

(C) The review committee shall be composed of State Department of Education staff, representatives from selected school districts, higher education, and business.

Section 59-18-1580. If recommendations approved by the State Board of Education are not satisfactorily implemented by the school district according to the time line developed by the State Board of Education, or if student performance has not made the expected progress and the school district is designated as unsatisfactory, the district superintendent and members of the board of trustees must appear before the State Board of Education to outline the reasons why a state of emergency should not be declared in the district. The state superintendent, with the approval of the State Board of Education, is granted authority to do any of the following:

(1) furnish continuing advice and technical assistance in implementing the recommendations of the State Board of Education;

(2) recommend to the Governor that the office of superintendent be declared vacant. If the Governor declares the office vacant, the state superintendent may furnish an interim replacement until the vacancy is filled by the board of trustees or until an election is held as provided by law to fill the vacancy if the superintendent who is replaced is elected to such office. Local boards of trustees negotiating contracts for the superintendency shall include a provision that the contract is void should the Governor declare that office of superintendency vacant pursuant to this section. This contract provision does not apply to any existing contracts but to new contracts or renewal of contracts;

(3) declare a state of emergency in the school district and assume management of the school district.

Section 59-18-1590. To assist schools and school districts as they work to improve classroom practice and student performance, the Department of Education must increase the delivery of quality technical assistance services and the assessment of instructional programs. The department may need to reshape some of its organization and key functions to make them more consistent with the assistance required by schools and districts in developing and implementing local accountability systems and meeting state standards. The Department of Education must:

(1) establish an ongoing state mechanism to promote successful programs found in South Carolina schools for implementation in schools with similar needs and students, to review evidence on instructional and organizational practices considered to be effective, and to alert schools and classroom teachers to these options and the sources of training and names of implementing schools;

(2) provide information and technical assistance in understanding state policies, how they fit together, and the best practice in implementing them; and

(3) establish a process for monitoring information provided for accountability and for assessing improvement efforts and implementation of state laws and policies which focuses on meeting the intent and purpose of those laws and policies.

Article 17 Public Information

Section 59-18-1700. (A) An on-going public information campaign must be established to apprise the public of the status of the public schools and the importance of high standards for academic performance for the public school students of South Carolina. A special committee shall be appointed by the Chairman of the Education Oversight Committee to include two committee members representing business and two representing education and others representing business, industry, and education. The committee shall plan and oversee the development of a campaign, including public service announcements for the media and other such avenues as deemed appropriate for informing the public. The plan must be reported to the Governor, the Senate Education Committee, and the House Education and Public Works Committee by March 15, 1999.

(B) A separate fund within the state general fund will be established to accept grants, gifts, and donations from any public or private source or monies that may be appropriated by the General Assembly for the public information campaign. Members of the Oversight Committee representing business will solicit donations for this fund. Income from the fund shall be retained in the fund. All funds may be carried forward from fiscal year to fiscal year. The State Treasurer shall invest the monies in this fund in the same manner as other funds under his control are invested. The Oversight Committee shall administer and authorize any disbursements from the fund. Private individuals and groups shall be encouraged to contribute to this endeavor.

Article 19 Miscellaneous

Section 59-18-1900. (A) The State Board of Education, working with the Department of Education and the Education Oversight Committee, shall establish a competitive grant program to fund at least ten alternative schools. Districts are authorized and encouraged to cooperate in establishing alternative schools and such jointly established schools will be given priority in awarding the grants. Alternative schools established prior to this act shall not be prohibited from participation in this program. These schools must be at a site separate from other schools, unless operated at a time when those schools are not in session. These schools shall provide appropriate services to middle or high school students who for academic or behavioral reasons are not benefiting from the regular school program. The regulations must include guidelines to ensure that effective practices are adopted.

(B) To be eligible for funding, the school districts must develop a plan for the school which establishes a comprehensive program to address student problems. State requirements for staffing may be waived if the plan meets the criteria and has a reasonable expectation of success. The plan must include:

- (1) the mission of the school;
- (2) policy for the basis of enrollment in the school;
- (3) a low pupil-teacher ratio, to include one on one assistance, independent computer assisted learning and distance learning;
- (4) provision for transportation to the school;
- (5) establishment of comprehensive staff development;
- (6) appointment of a mentor teacher at the student's original school in order to ease transition back to that school when such a transfer occurs; and

(7) a process for community involvement and support.

The districts shall contract with the school for each student attending for an amount that is no less than the amount equal to that generated by the student's EFA weight.

Section 59-18-1910. The State Board of Education shall establish grant programs to fund homework centers in schools and districts designated as below average and unsatisfactory. Until such time as these ratings are established, all schools in districts declared to be impaired are eligible to receive funding on a per pupil basis. Schools receiving such designations must provide centers that go beyond the regular school hours where students can come and receive assistance in understanding and completing their school work. Funds provided for these centers may be used for salaries for certified teachers and for transportation costs. Homework centers meeting the criteria established by the board shall receive funds as appropriated by the General Assembly. For 1998-99, of the funds appropriated for assessment, up to five hundred thousand dollars shall be used for homework centers.

Section 59-18-1920. (A) The State Board of Education, through the Department of Education, shall establish a grant program to encourage school districts to pilot test or implement a modified school year or school day schedule. The purpose of the grant is to assist with the additional costs incurred during the intersessions for salaries, transportation, and operations, or for additional costs incurred by lengthening the school day. For a district to qualify for a grant, all the schools within a specific feeder zone or elementary-to-middle-to-high-school attendance area, must be pilot testing or implementing the modified year or day schedule. Districts declared to be impaired will have priority in obtaining such grants.

(B) To obtain a grant, a district shall submit an application to the state board in a format specified by the Department of Education. The application shall include a plan for implementing a modified year or day that provides the following: more time for student learning, learning opportunities that typically are not available in the regular student day, targeted assistance for students whose academic performance is significantly below promotion standards, more efficient use of facilities and other resources, and evaluations of the impact of the modified schedule. Local district boards of trustees shall require students whose performance in a core subject area, as defined in Section 59-18-300, is the equivalent of a 'D' average or below to attend the intersessions or stay for the lengthened day and receive special assistance in the subject area. Funding for the program is as provided by the General Assembly in the annual appropriations act. Each grant award for program pilot testing or implementation may not exceed a three-year period.

Section 59-18-1930. The Education Oversight Committee shall provide for a comprehensive review of state and local professional development to include principal leadership development and teacher staff development. The review must provide an analysis of training to include what professional development is offered, how it is offered, the support given to implement skills acquired from professional development, and how the professional development enhances the academic goals outlined in district and school strategic plans. The Oversight Committee shall recommend better ways to provide and meet the needs for professional development, to include the use of the existing five contract days for in service. Needed revisions shall be made to state regulations to promote use of state dollars for training which meets national standards for staff development."

Findings

SECTION 3. Article 1, Chapter 24, Title 59 of the 1976 Code is amended by adding:

"Section 59-24-5. The General Assembly finds that the leadership of the principal is key to the success of a school, and support for ongoing, integrated professional development is integral to better schools and to the improvement of the actual work of teachers and school staff."

Assessment and development plans for administrators

SECTION 4. Sections 59-24-10 and 59-24-30 of the 1976 Code, as last amended by Act 458 of 1996, are further amended to read:

"Section 59-24-10. Beginning with the school year 1999-2000, any person prior to permanent appointment as a principal for any elementary school, secondary school, or vocational center must be assessed for instructional leadership and management capabilities by the Leadership Academy of the South Carolina Department of Education. Districts may appoint such persons on an interim basis until such time as the assessment is completed. A report of this assessment must be forwarded to the district superintendent and board of trustees. The provisions of this section do not apply to any persons currently employed as principals on the effective date of the provisions of this paragraph nor to any persons hired as principals before the beginning of school year 1999-2000.

Section 59-24-30. All school administrators shall develop an on-going individual professional development plan with annual updates which is appropriate for their role or position. This plan shall support both their individual growth and organizational needs. Organizational needs must be defined by the districts' strategic plans or school renewal plans. Individuals completing the assessment for instructional leadership will develop their professional development plan on the basis of that assessment. The Department of Education shall assist school administrators in carrying out their professional development plans by reviewing the school and district plans and providing or brokering programs and services in the areas identified for professional development."

Professional development

SECTION 5. Section 59-24-50 of the 1976 Code is amended to read:

"Section 59-24-50. By January 1, 1999, the South Carolina Department of Education's Leadership Academy shall develop, in cooperation with school districts, district consortia, and state-supported institutions of higher education, continuous professional development programs which meet national standards for professional development and focus on the improvement of teaching and learning. By July 1, 1999, programs funded with state funds must meet these standards and must provide training, modeling, and coaching on effective instructional leadership as it pertains to instructional leadership and school-based improvement, including instruction on the importance of school improvement councils and ways administrators may make school improvement councils an active force in school improvement. The training must be developed and conducted in collaboration with the School Council Assistance Project."

Formal induction program

SECTION 6. Article 1, Chapter 24, Title 59 of the 1976 Code is amended by adding:

"Section 59-24-80. Beginning with school year 1999-2000, each school district, or consortium of school districts, shall provide school principals serving for the first time as the head building administrators with a formalized induction program in cooperation with the State Department of

Education. The State Board of Education must develop regulations for the program based on the criteria and statewide performance standards which are a part of the process for assisting, developing, and evaluating principals employed in the school districts. The program must include an emphasis on the elements of instructional leadership skills, implementation of effective schools research, and analysis of test scores for curricular improvement."

Contract status and rights retained; exceptions

SECTION 7. The 1976 Code is amended by adding:

"Section 59-24-15. Certified education personnel who are employed as administrators on an annual or multi-year contract will retain their rights as a teacher under the provisions of Article 3 of Chapter 19 and Article 5 of Chapter 25 of this title but no such rights are granted to the position or salary of administrator. Any such administrator who presently is under a contract granting such rights shall retain that status until the expiration of that contract."

Education Oversight Committee; membership; duties

SECTION 8. Section 59-6-10 of the 1976 Code is amended to read:

"Section 59-6-10. (A) In order to assist in, recommend, and supervise implementation of programs and expenditure of funds for the Education Accountability Act and the Education Improvement Act of 1984, the Education Oversight Committee is to serve as the oversight committee for these acts. The Education Oversight Committee shall:

- (1) review and monitor the implementation and evaluation of the Education Accountability Act and Education Improvement Act programs and funding;**
- (2) make programmatic and funding recommendations to the General Assembly;**
- (3) report annually to the General Assembly, State Board of Education, and the public on the progress of the programs;**
- (4) recommend Education Accountability Act and EIA program changes to state agencies and other entities as it considers necessary.**

Each state agency and entity responsible for implementing the Education Accountability Act and the Education Improvement Act funded programs shall submit to the Education Oversight Committee programs and expenditure reports and budget requests as needed and in a manner prescribed by the Education Oversight Committee.

The committee consists of the following persons:

- (1) Speaker of the House of Representatives or his designee;
- (2) President Pro Tempore of the Senate or his designee;
- (3) Chairman of the Education and Public Works Committee of the House of Representatives or his designee;

- (4) Chairman of the Education Committee of the Senate or his designee;
- (5) Governor or his designee;
- (6) Chairman of the Ways and Means Committee of the House of Representatives or his designee;
- (7) Chairman of the Finance Committee of the Senate or his designee;
- (8) Five members representing business and industry who must have experience in business, management, or policy to be appointed as follows: one by the Governor, one by the President Pro Tempore of the Senate, one by the Speaker of the House, one by the Chairman of the Senate Education Committee, and one by the Chairman of the House Education and Public Works Committee; and
- (9) Five members representing public education teachers and principals to be appointed as follows: one by the Governor, one by the President Pro Tempore of the Senate, one by the Speaker of the House, one by the Chairman of the Senate Education Committee, and one by the Chairman of the House Education and Public Works Committee.

Initial appointment must be made by July 31, 1998, at which time the Governor or his designee shall call the first meeting. At the initial meeting, a chairman elected from the members representing the business and industry appointees and a vice chairman representing the education members shall be elected by a majority vote of the committee. The members appointed pursuant to items (1) through (7) may serve notwithstanding the provisions of Section 8-13-770. Their terms of office on the committee must be coterminous with their terms of office as Governor or members of the General Assembly.

(B) The terms of office of the members of the Education Oversight Committee, except for the legislative members, are four years and until their successors are appointed and qualify except of those first appointed the terms must be staggered as follows:

- (1) initial terms of two years shall be served by the two members of the business and industry community appointed by the chairmen of the Education Committees;
- (2) initial terms of three years shall be served by the members of the education community appointed by the President Pro Tempore of the Senate and the Speaker of the House; and
- (3) all other voting members shall serve initial four-year terms. The terms of chairman and vice chairman shall be two years. At the end of each two-year term, an election must be held for the chairmanship and vice chairmanship by majority vote of the members attending with quorum present. No member shall serve more than four consecutive years as chairman or vice chairman. Members of the committee shall meet no less than once a quarter and annually shall submit their findings and recommendations to the General Assembly before March first of each fiscal year. The staff positions of the Select Committee and the people presently in those positions initially shall be transferred to the Education Oversight Committee as administrative staff to carry out its functions."

Accountability division established

SECTION 9. Chapter 6, Title 59 of the 1976 Code is amended by adding:

"Section 59-6-100. Within the Education Oversight Committee, an Accountability Division must be established to report on the monitoring, development, and implementation of the performance based accountability system and reviewing and evaluating all aspects of the Education Accountability Act and the Education Improvement Act.

The Education Oversight Committee will employ, by a majority vote, for a contract term of three years an executive director for the Accountability Division. The director must be chosen solely on grounds of fitness to perform the duties assigned to him and must possess at least the following qualifications: a demonstrated knowledge of public education, experience in program evaluation, and experience in a responsible managerial capacity. No member of the General Assembly nor anyone who will have been a member for one year previously will be contracted to serve as director. The director will have the authority to employ, with the approval of the subcommittee, professional and support staff as necessary to carry out the duties of the division, which shall be separate from the administrative staff of the Education Oversight Committee.

Section 59-6-110. The division must examine the public education system to ensure that the system and its components and the EIA programs are functioning for the enhancement of student learning. The division will recommend the repeal or modification of statutes, policies, and rules that deter school improvement. The division must provide annually its findings and recommendations in a report to the Education Oversight Committee no later than February first. The division is to conduct in-depth studies on implementation, efficiency, and the effectiveness of academic improvement efforts and:

- (1) monitor and evaluate the implementation of the state standards and assessment;**
- (2) oversee the development, establishment, implementation, and maintenance of the accountability system;**
- (3) monitor and evaluate the functioning of the public education system and its components, programs, policies, and practices and report annually its findings and recommendations in a report to the commission no later than February first of each year; and**
- (4) perform other studies and reviews as required by law.**

The responsibilities of the division do not include fiscal audit functions or funding recommendations except as they relate to accountability. It is not a function of this division to draft legislation and neither the director nor any other employee of the division shall urge or oppose any legislation. In the performance of its duties and responsibilities, the division and staff members are subject to the statutory provisions and penalties regarding confidentiality of records as they apply to students, schools, school districts, the Department of Education, and the Board of Education.

Section 59-6-120. The State Department of Education, the State Board of Education, and the school districts and schools shall work collaboratively with the Division of Accountability to provide information needed to carry out the responsibilities and duties of its office. The Division of Accountability may call on the expertise of the state institutions of higher learning and any other public agencies for carrying out its functions and may coordinate and consult with existing agency and legislative staff."

Task force

SECTION 10. When parents are involved with their children's education, students achieve more, regardless of socio-economic status, ethnic/racial background, or the parents' education level. The more extensive the parent involvement, the higher level of the student achievement. Therefore, the Education Oversight Committee shall appoint a task force to review current state programs and policies for parent participation in their children's education. The task force is to look for ways to encourage and induce parents to oversee and support student academic performance and behavior that contributes to academic improvement. The membership of the task force should include: public school educators from rural, urban, and suburban schools and districts; parents of public school children; social service representatives; and a juvenile justice representative. The task force must be appointed no later than September 1, 1998, and shall provide its report and recommendations to the Education Oversight Committee by October 15, 1999.

Phonics required

SECTION 11. Section 59-29-10 of the 1976 Code is amended to read:

"Section 59-29-10. The county board of education and the board of trustees for each school district shall see that in every school under their care there shall be taught, as far as practicable, orthography, reading, writing, arithmetic, geography, English grammar and instruction in phonics, the elements of agriculture, the history of the United States and of this State, the principles of the Constitutions of the United States and of this State, morals and good behavior, algebra, physiology and hygiene (especially as to the effects of alcoholic liquors and narcotics upon the human system), English literature, and such other branches as the state board may from time to time direct."

Class size reduction; funding; facilities

SECTION 12. Title 59, Chapter 63 of the 1976 Code is amended by adding:

"Section 59-63-65. School districts which choose to reduce class size to fifteen to one in grades one through three shall be eligible for funding for the reduced pupil-teacher ratios from funds provided by the General Assembly for this purpose. Funding for schools in districts designated as impaired or for schools rated as unsatisfactory on the accountability ratings will receive priority in the distribution of funds. Funding for the impaired district schools and schools ranked unsatisfactory will be allocated based on the average daily membership in grades one through three in those schools for implementing reduced class size of fifteen to one in those grades. Other school districts will receive funding allocated based on free and reduced lunch eligible students. Local match is required for the lower ratio funding based on the Education Finance Act formula. Boards of trustees of each school district may implement the lower pupil-teacher ratios on a school by school, grade by grade, or class by class basis. District boards of trustees implementing the reduced ratios must establish policies to give priority to reduce the ratios in schools with the highest number of students eligible for the federal free and reduced lunch program, and these students must be given priority in implementing the reduced class size. Unobligated funds from state appropriations which become available to a district during a fiscal year shall be redistributed to fund additional teachers on a prorated basis.

Districts choosing to implement the reduced class size must track the students served in classes with a 15:1 ratio for three years so that the impact of smaller class size can be evaluated. The Department of Education, working with the Accountability Division, will develop a plan for evaluating the impact of this initiative and report to the Education Oversight Committee no later

than December 1, 2001. School districts must document the use of these funds to reduce class size and the State Department of Education will conduct audits to confirm appropriate use of class size reduction funding.

As used in this section, 'teacher' refers to an employee possessing a professional certificate issued by the State Department of Education whose full-time responsibility is instruction of students. Pupil-teacher ratio is based on average daily membership.

Portable or other temporary classroom space may be used to meet any facilities needs for reducing class size to fifteen to one, and notwithstanding the provisions of Section 59-144-30, funding derived from the Children's Education Endowment Fund may be used to acquire such portable or temporary facilities."

Repeal

SECTION 13. Sections 59-6-12, 59-18-10, 59-18-11, 59-18-15, 59-18-20, 59-18-25, 59-18-30, and 59-18-31 of the 1976 Code are repealed.

Copy of act to be provided

SECTION 14. The Department of Education must provide a copy of this act to every district superintendent and school principal in this State.

References

SECTION 15. The Code Commissioner is directed to change all references in the Code of Laws to the Select Committee so as to read the Education Oversight Committee.

Time effective

SECTION 16. This act takes effect upon approval by the Governor.

Approved the 10th day of June, 1998.

Simulation of High School Ratings Indices Based on Exit Exam Performance and Percent Eligible for LIFE Scholarships

The impact of the proposed ratings criteria were estimated using simulated data from the 1998-1999 school year:

Longitudinal Exit Examination Performance: The longitudinal progress of students who took the Exit Examination for the first time as tenth graders in 1997 was followed until their spring graduation two years later in 1999. The percentage of these students who successfully completed all three Exit Examination subtests (Reading, Writing, and Mathematics) was estimated by matching test data from each administration of the Exit Examination in Spring, 1997, Spring, 1998, Fall, 1998, and Spring, 1999.

Tenth Grade First Attempt Exit Examination Performance: The percentage of students in the tenth grade in the Spring of 1999 who took the Exit Examination for the first time and met the standards for all three subtests was calculated.

Eligibility for LIFE Scholarship: The percentage of seniors in the Class of 1999 who met the criteria for eligibility for a LIFE Scholarship to four-year institutions of higher learning was simulated based on the percentage of students scoring 1000 or higher on the SAT. Grade-point averages and ACT data were not available for the simulation.

The data used for the simulations provide estimates of the range of values for the ratings criteria for the 1998-1999 school year. The results from these simulations provide background information useful for estimating the impact of the ratings criteria, but they do not represent the actual ratings which may be attained by individual schools when the ratings are calculated on current data for the November, 2001 report card.

Students on Academic Plans

DEFINITION:

General

This fact reports the percentage of grade 4-8 students at this school/district that have state-required individualized plans for improvement of student academic performance.

Formula

School

1. Determine the total number of students in grades 4-8 who have state-required individual academic plans in the school
2. Divide the sum by the total enrollment in grades 4-8 at the school

District

1. Determine the total number of students in grades 4-8 who have state-required individual academic plans in the district
2. Divide the sum by the total enrollment in grades 4-8 in the district

PROCEDURES:

Collected by:

State Department of Education, Office of Research

Reported by:

School districts

Timeframe

November 15

Students on Academic Probation

DEFINITION:

General

This fact reports the percentage of students in grades 5-8 in danger of repeating current grade level because of low/poor performance in classroom and/or standardized assessments.

Formula

School

1. Determine the total number of students at school designated as being in danger of repeating current grade level assignment because of low/poor performance in classroom and/or standardized assessments.
2. Divide by the total number of students enrolled in grades 5-8 at the school.

District

1. Determine the total number of students in district designated as being in danger of repeating current grade level assignment because of low/poor performance in classroom and/or standardized assessments.
2. Divide by the total number of students enrolled in grades 5-8 in the district.

PROCEDURES:

Collected by:

State Department of Education, Office of Research

Reported by:

School districts

Timeframe

November 15

Note: The title to be displayed on the annual school or district report card is underlined.

Number of students completing Adult Education diploma or GED preparation programs

DEFINITION:

General

This fact reports the number of students receiving a GED or a diploma through adult education programs.

Formula

Determine the number of students completing requirements for a GED or a high school diploma through Adult Education programs in the district.

PROCEDURES:

Collected by:

State Department of Education, Office of Adult Education

Reported by:

Adult Education Directors

Timeframe

190 day

The number of students enrolled in Adult Education diploma or GED preparation programs

DEFINITION:

General

This fact reports the number of students enrolled in Adult Education diploma or GED preparation programs.

Formula

Determine the total unduplicated count of the number of students enrolled in Adult Education diploma or GED preparation programs in the district

PROCEDURES:

Collected by:

State Department of Education, Office of Adult Education

Reported by:

Adult Education Directors

Timeframe

190 day

Note: The title to be displayed on the annual school or district report card is underlined.

AP/IB Success Ratios

DEFINITION:

General

This indicator reports a ratio of the duplicated number of students enrolled in Advanced Placement (AP) classes to the number of AP examinations taken at the school that receive scores of 3, 4, 5 (necessary to be eligible for college credit).

This indicator reports the duplicated number of students enrolled in International Baccalaureate (IB) classes to the number of IB examinations taken at the school that receive scores of 4, 5, 6, or 7 (necessary to be eligible for college credit).

Formula/

Advanced Placement

Present this indicator as a ratio.

1. Determine the duplicated number of students enrolled in Advanced Placement (AP) classes at the school.
2. Determine the number of AP examinations taken at the school with scores of 3, 4, 5.

International Baccalaureate

Present this indicator as a ratio

1. Determine the duplicated number of students enrolled in International Baccalaureate (IB) classes at the school.
2. Determine the number of IB examinations taken at the school with scores of 4, 5, 6, or 7.

PROCEDURES:

Collected by:

State Department of Education, Office of Research

Reported by:

School districts

Timeframe

January - March - Precode

Advanced Placement/International Baccalaureate Scores - Educational Testing Service (ETS) reported to schools in July each year

Note: The title to be displayed on the annual school or district report card is underlined.

Opportunities in the Arts

DEFINITION:

General

The number of arts disciplines offered in a school and the percentage of arts classes taught by teachers certified in the art discipline (music, visual art, drama, dance)

Formula

Category A - Number of arts disciplines offered during school year 2000-2001, including those offered through interactive technology.

Elementary schools: during the school day for at least an average of 30 minutes/arts disciplines each week

Middle/High School: for a minimum of one semester credit/unit

	<u>Option</u>	<u>Point Value</u>
<input type="checkbox"/>	0 or 1 discipline	1
<input type="checkbox"/>	2 disciplines	4
<input type="checkbox"/>	3 disciplines	7
<input type="checkbox"/>	4 disciplines	8

Category B - Percentage of the arts disciplines taught by teachers certified in the arts discipline(s) they are teaching (defined the same at all school levels)

	<u>Option</u>	<u>Point Value</u>
<input type="checkbox"/>	Less than 50%	1
<input type="checkbox"/>	50%	2
<input type="checkbox"/>	75%	3
<input type="checkbox"/>	100%	4

Total Score: $\frac{A+B}{2}$

Interpretation of Total Scores

Poor	=	2.5 or below
Fair	=	2.6 - 3.5
Good	=	3.6 - 4.9
Excellent	=	5 or above

PROCEDURES:

Collected by:

State Department of Education

Reported by:

School Districts

Timeframe

190 day

Note: The title to be displayed on the annual school or district report card is underlined.

Average Daily Attendance of District Staff

DEFINITION:

General

This fact reports the percentage of professional certified district staff members present on each contract day.

Formula

1. Determine the total days present for professional district staff members at the end of the contract year. Include district office professional staff assigned to the district office for accounting and required reporting purposes ONLY.
2. Divide the sum by the number of contract days for professional district staff members.

PROCEDURES:

Collected by:

State Department of Education, Office of Research

Reported by:

School Districts

End of Year Attendance Survey

Timeframe

190 day

Percentage of students with non-speech disabilities

DEFINITION:

General

Formula

The percentage of students qualifying under IDEA and receiving services in programs for students with disabilities (excluding students receiving speech services only).

School

1. Determine the total number of students at the school qualifying under IDEA and receiving services in programs for students with disabilities (excluding students receiving speech services) on the 45th day.
2. Divide the total by the number of students enrolled at the school on the 45th day of school.

District

1. Determine the total number of students enrolled in the district qualifying under IDEA and receiving services in programs for students with disabilities (excluding students receiving speech services) on the 45th day.
2. Divide the total by the number of students enrolled at the district on the 45th day of school.

PROCEDURES:

Collected by:

State Department of Education, Office of Research

Reported by:

School district - OSIRIS - Precode data

Timeframe

January - March

Note: The title to be displayed on the annual school or district report card is underlined.

Annual Dropout Rate

DEFINITION:

General

This fact provides information on the annual rate of students who leave school for any reason other than death, prior to graduation or completion of a course of studies without transferring to another school or institution divided by the total number of students enrolled at the school (grades 9-12) (SDE Guidelines).

Formula

School - (Grades 9-12 only)

Calculated for each school grades 9-12 (overall).

1. Determine the number of students who dropped out of school during the previous school year (as per SDE guidelines).
2. Add the number of students who failed to return after the summer.
3. Divide the sum of 1 & 2 by the total number of students enrolled on the last day of school during the previous school year.

Data will be two years behind.

PROCEDURES:

Collected by:

State Department of Education, Office of Career and Technology Education

Reported by:

School district

Timeframe

45th day of the following school year

Enrollment

DEFINITION:

General

Total number of students enrolled in the school/district on the 45th day of school

Formula

School

Determine the student count for the total number of students enrolled in the school on the 45th day of school.

District

Determine the student count for the total number of students enrolled in the district on the 45th day of school.

PROCEDURES:

Collected by:

State Department of Education, Office of Research

Reported by:

School district

Timeframe

January - March

Note: The title to be displayed on the annual school or district report card is underlined.

Enrolled in career technology courses at comprehensive high schools

DEFINITION:

General

The total number of students that are enrolled in career technology (occupational) courses at the comprehensive high school. Each course must meet a minimum of 250 minutes weekly.

Formula

Determine the total number of students that are enrolled in career technology courses of study at the comprehensive high school on the 45th day of school.

PROCEDURES:

Collected by:

Office of Career and Technology Education

Reported by:

School District - OSIRIS - Precode data

Timeframe

January - March

Career Technology Enrollment at Career Technology Centers

DEFINITION:

General

The number of students enrolled in classes at the career technology center

Formula

Determine total number of students enrolled at the career technology center on the 45th day

PROCEDURES:

Collected by:

State Department of Education, Office of Career and Technology Education

Reported by:

Career Technology Center Directors

Timeframe

45 day

Percentage Expenditures on Teacher Salaries

DEFINITION:

General

This fact provides information on the percentage of per student expenditures spent on teacher, instructional assistant and substitute salaries.

Formula

School

1. Add teacher salaries, instructional assistant salaries and substitute teacher pay for the year of the report card data (school).
2. Divide by the total dollars spent per students.

District

1. Add teacher salaries, instructional assistant salaries and substitute teacher pay for the year of the report card data (district).
2. Divide by the total dollars spent per student.

PROCEDURES:

Collected by:

State Department of Education, Office of Finance

Reported by:

School District Financial Officers

Timeframe

135 day - Data will be one year behind.

Note: The title to be displayed on the annual school or district report card is underlined.

Average Age of Facilities*

DEFINITION:

General

The average age (years since construction) of all school facilities in the district.

Formula

1. Determine the age of each school facility in the district.
2. Total the ages (years since construction) for all school facilities in the district.
3. Divide the sum (2) by the total number of school facilities in the district.

*Buildings used for the instruction of students.

PROCEDURES:

Collected by:

State Department of Education, Office of Facilities

Reported by:

School Districts

Timeframe

190 Day Report

Eligible for state gifted and talented services

DEFINITION:

General

This fact reports the percentage of students who meet the state guidelines for receiving gifted and talented services.

Formula

School

1. Determine the number of students at the school who qualify to receive gifted and talented services as per state-identified guidelines. (grades 3-10)
2. Divide the sum by the total number of students enrolled in grades 3-10 at the school on the 45th day.

District

1. Determine the number of students in (grades 3-10) the district who qualify to receive gifted and talented services as per state-identified guidelines.
2. Divide the sum by the total number of students enrolled in grades 3-10 the district on the 45th day.

PROCEDURES:

Collected by:

Office of Research, Office of Finance

Reported by:

School districts

Precode Reporting Process

Timeframe

January - March

Note: The title to be displayed on the annual school or district report card is underlined.

Graduation Rate

DEFINITION:

General

This indicator reports the percentage of original ninth grade students who earn standard high school diplomas who graduate in four years or less (i.e., on time), excluding students with disabilities on a certificate plan.

Formula

School/District

1. Student Count
9th Grade Student Count for school year beginning 4 years before year of graduation. (Count is taken from 9th grade Master Classification List.)
Subtract 9th grade repeaters - _____
Subtract all IEP non-diploma track students - _____
Subtract all students who transferred out of school/district - _____
Add all students who transferred into school/district + _____
Total Number of Students = _____
2. Diplomas, and or GED Issued
Number of students receiving diplomas _____
Number of students receiving GED + _____
Total Number of Diplomas, and/or GED Issued = _____
3. Graduation Rate
Divide (Step Two by Step One) _____

PROCEDURES:

Percentage of 7th and 8th grade students enrolled in high school credit courses

DEFINITION:

General

This fact reports the percentage of 7th and 8th grade students that enroll in courses for high school credit.

Formula

1. Determine the total number of students enrolled on 45th day in grades 7 and 8 enrolled in courses for high school credit
2. Divide the total by the number of 7th and 8th graders enrolled at the school on the 45th day.

PROCEDURES:

Collected by:

State Department of Education, Office of Research

Reported by:

School districts

Timeframe

January - March

Participation in Co-Curricular Career Technology Organizations

DEFINITION:

General

This fact reports the percentage of students attending career technology centers or comprehensive high schools that participate in career technology co-curricular organizations.

Formula

Career Technology Centers

1. Determine the unduplicated number of students at the career technology center that participate in school-related clubs/organizations (VICA, FBLA, FHA, HERO, DECA, HOSA, TSA, FFA).
2. Divide the sum by the total number of students enrolled at the school on the 45th day of school.

Comprehensive High School

1. Determine the unduplicated number of students at the comprehensive high school that participate in school-related clubs/organizations (VICA, FBLA, FHA, HERO, DECA, HOSA, TSA, FFA).
2. Divide the sum by the total number of students enrolled in career technology courses on the 45th day of school.

PROCEDURES:

Collected by:

State Department of Education, Office of Career and Technology Education

Reported by:

School District Career Technology Coordinators, Directors

Timeframe

190 day

Note: The title to be displayed on the annual school or district report card is underlined.

Students two or more years over age for grade

DEFINITION:

General

This fact provides information on the percentage of students who are more than two years over age for grade.

Formula

1. Determine the total number of students enrolled at 45th day who are more than two years older than the typical age of pupils at student's current grade assignment. (September as reference date)
2. Divide the sum by the total number of students enrolled at the school on the 45th day.

Timeframe

January - March

Parent Conferences

DEFINITION:

General

The percentage of students in the school whose parents/guardians participate in or attended an individual parent conference and/or an academic plan conference

Formula

1. Count the number of students in the school whose parents/guardians attended at least one individual parent conference (unduplicated count) or an academic plan conference during the school year.
2. Divide the total number of students in the school whose parents/guardians attended at least one individual parent conference or an academic plan conference at the school (step 1) by the total number of students enrolled at the school on the 135th day of school

PROCEDURES:

Collected by:

State Department of Education

Reported by:

School Districts

Timeframe

190 day

Note: The title to be displayed on the annual school or district report card is underlined.

Percentage of students meeting physical education standards

DEFINITION:

This fact reports the percentage of ninth grade students meeting physical education performance criteria that include:

1. Competence in at least two movement forms (50%)
2. Design and development of appropriate fitness program (20%);
3. Participation in regular physical activity (outside class) (10%);
4. Meet gender and age group fitness standards (National Association for Sport and Fitness) 20%

Formula

1. Determine the total number of ninth grade students at the school that meet designated physical education performance criteria (as detailed above)
2. Divide the total by the number of ninth grade students enrolled at the school on the 45th day of school.

Note: Each of the above criteria will be assessed on a 0-3 scale on a sample of students at each school to determine competence levels. Assign value to each score.

Multiply the score (1,2,3) in each of the 4 areas times the assigned value

Area (1) X value X score

Area (2) X value X score

Area (3) X value X score

Area (4) X value X score

Total the score

Interpretation of School Ratings

Poor = 2.5 or below

Fair = 2.6 - 3.5

Good = 3.6 - 4.9

Excellent = 5 or above

Percentage of portable classrooms

DEFINITION:

General

This fact reports the number of portable (relocatable units)* classrooms (shown as a percentage of the total classrooms)

Formula

1. Determine the number of classrooms classified as portable structures (relocatable units)* in the district during the school year for which data is being reported.
2. Divide by the total number of classrooms.

Administrative salary comparisons

DEFINITION:

General

This fact reports the average salary of administrators in the district. The average district salary is compared to national and state average salary for these educators.

Formula

1. Determine the aggregate salaries of administrators in the district (paid on administrative schedule)
2. Divide the sum by the total number of administrators in the district.

PROCEDURES:

Collected by:

State Department of Education, Office of Finance

Reported by:

Students with non-speech disabilities taking PACT on grade level

DEFINITION:

General

The number of students for whom all PACT tests taken (ELA and mathematics in 2001) are at the same grade level as their EFA grade designation.

Formula

Determine the number of students who take a PACT test which is at their designated EFA grade level. Divide by the number of students tested and convert to percentage.

PROCEDURES:

Collected by:

State Department of Education, Office of Research

Reported by:

School district

Timeframe

Out of School suspensions or expulsions for violent and/or criminal offenses**DEFINITION:****General**

This fact provides information on the number of out of school suspensions and expulsions for physical violence and/or criminal offenses.

Formula**School**

Determine the number of incidents of dismissal from school (out of school suspensions and expulsions) for incidents occurring on school grounds, on school transportation, or at school sponsored events to include: 1. Aggravated Assault; 2. Simple Assault; 3. Intimidation; 4. Drug Violations; 5. Larceny/Theft; 6. Liquor Law Violations; 7. Disturbing Schools (bomb threats, false fire alarms, disorderly conduct) 8. Vandalism; 9. Weapons Possessions; 10. Sex Offenses; 11. Arson; 12. Robbery; 13. Burglary/Breaking and Entering; 14. Vehicle Theft; 15. Homicide; 16. Other Criminal Offenses.

District

Determine the number of incidents of dismissal from school (out of school suspensions and expulsions) for incidents occurring on school grounds, on school transportation, or at school sponsored events to include: 1. Aggravated Assault; 2. Simple Assault; 3. Intimidation; 4. Drug Violations; 5. Larceny/Theft; 6. Liquor Law Violations; 7. Disturbing Schools (bomb threats, false fire alarms, disorderly conduct) 8. Vandalism; 9. Weapons Possessions; 10. Sex Offenses; 11. Arson; 12. Robbery; 13. Burglary/Breaking and Entering; 14. Vehicle Theft; 15. Homicide; 16. Other Criminal Offenses.

Career Technology Students in Work-Based Experiences

DEFINITION:

General

This fact reports the percentage of students involved with in-depth learning experiences at a work-site providing students with work-related knowledge and skills (youth apprenticeships, registered apprenticeships, cooperative education, mentoring, shadowing, internships and service learning).

Formula

Career Technology Centers

1. Determine the total number of career technology students participating in structured experiences with an outside agency or business (types listed in general definition).
2. Divide the total (#1) by the total number of students enrolled at the center on the 45th day of school.

Comprehensive High Schools

1. Determine the total number of career technology students that participate in structured experiences with an outside agency or business.
2. Divide the total (#1) by the total number of students enrolled in career technology courses at the High School.

Teachers with advanced degrees

DEFINITION:

General

This indicator reports the percentage of teachers with earned degrees above the Bachelor's.

Formula

School

1. Determine the total number of teachers at the school with Masters degrees and above.
2. Divide the sum by the total number of teachers in the school.

District

1. Determine the total number of teachers in the district with Masters degrees and above.
2. Divide the sum by the total number of teachers in the district.

Student Average Daily Attendance

DEFINITION:

General

This indicator reports the average number of students present on each day.

Formula

1. Determine the total number of days present for students in the school on the 135th day
2. Divide this amount by the number of days students were enrolled at the school.

PROCEDURES:

Collected by:

State Department of Education, Office of Finance

Timeframe

135 Day

Teacher Average Daily Attendance

DEFINITION:

General

This indicator reports the average percentage of teachers present on each school day.

Formula

School

1. Total the number of days present for teachers in the school. (Annual leave days for teachers in state special schools are excluded.)
2. Multiply number of teachers by 190 contract days (or number of contract days).
3. Divide step 1 by step 2.

Itinerant teachers should be included in calculations proportionate to assignment.

Until the teacher contract year reaches 195 days, teacher absences for professional development activities for which the district or school has paid a stipend or registration fee or activities teachers attend with permission from a school or district administrator are excused from the absence calculation. All activities which are excused must meet state-adopted standards for professional development.

Average Teacher Salary

DEFINITION:

General

School

This indicator reports the average salary of teachers at the school. This average is compared to the state average teacher salary on the school report card.

District

This indicator reports the average salary of teachers in the district. This average is compared to the state average teacher salary on the district report card.

Formula

School

1. Add the salaries of the total FTE teachers assigned to the school (based on 190 days).
2. Divide the sum by the total FTE teachers assigned to the school (based on 190 days).

District

1. Add the salaries of the total FTE teachers assigned to the district (based on 190 days).
2. Divide the sum by the total FTE teachers assigned to the district (based on 190 days).

PROCEDURES:

135 day

Teachers with continuing contract status

DEFINITION:

General

This indicator reports on the percentage of teachers in the school/district with continuing contract status.

Formula

School

Divide the total number of FTE teachers at the school with continuing contract status during the ratings year by the total number of FTE teachers in the school.

District

Divide the total number of FTE teachers in the district with continuing contract status during the school year of the report card data collection by the total number of FTE teachers in the district.

Professional Certification System

Timeframe

190 day

Professional Development Days Per Teacher

DEFINITION:

General

This indicator reports the average number of professional development days per teacher.

Formula

1. Multiply the number of professional staff paid on the teacher salary schedule by the 5 statutory days for professional development.
2. Add the product of the number of additional days for which the district or school has paid a stipend, or registration fee, or the teacher has permission from school or district administrator for professional development that meets the state-adopted standards by the number of teachers participating. Until the teacher contract year reaches 195 days, this formula may include activities occurring on instructional days.
3. Divide the sum of 1 and 2 by the total number of professional staff in item 1.

Collected by:

State Department of Education, Office of Research

Reported by:

School districts

Timeframe

190 day

Dollars spent per student

DEFINITION:

General

This indicator reports the federal, state and district funds spent for the education of each student during the most recent school year.

Formula

School

1. Determine annual operating expenses for all school activities. Include In\$ite categories for Instruction, Instructional Support, Operations, Leadership. Exclude expenses for Capital Outlay and Debt Service categories.
2. Divide the sum by the average daily membership (ADM) of the school.

District

1. Determine annual operating expenses for all district activities. Include In\$ite categories for Instruction, Instructional Support, Operations, Leadership. Exclude expenses for Capital Outlay and Debt Service categories.
2. Divide the sum by the average daily membership (ADM) of the district.

PROCEDURES:

Collected by:

State Department of Education, Office of Finance

Reported by:

Reporting Date

135 day **Note: These data are for the year preceding the ratings year.**

Percentage of Students Participating in Full Day Kindergarten

DEFINITION:

This fact reports the percentage of 1st graders at the school who participated in full day kindergarten programs.

Formula

1. Determine the total number of 1st grade students at the school site who participated in full day kindergarten programs (public, private if available).
2. Divide the total by the total number of students enrolled at the school on the 45th day of school year.

Fall

Teachers with "out-of-field" permits

DEFINITION:

General

This indicator reports the percentage of teachers with permits that enable them to teach outside their field(s) of certification.

Formula

1. Determine the total number of teachers.
2. Determine the number of teacher with out-of-field permits.
3. Divide step 2 by step 1.

PROCEDURES:

Collected by:

State Department of Education, Office of Teacher Certification

Reported by:

School district

Timeframe

190 day

Prime Instructional Time

DEFINITION:

General

This indicator provides information on the percentage of instructional time available when both teachers and students are present.

Formula

1. Calculate average teacher load:
$$\frac{\# \text{ students ADM}}{\# \text{ contract classroom teachers}}$$
2. Calculate the number of days teachers are absent from the classroom for any reason. (Annual leave for teachers in state special schools is excluded.)
3. Calculate the number of days students are absent from the classroom for any reason.
4. Calculate the total instructional time in days:
$$\# \text{ students ADM} \times 180 \text{ (or } \# \text{ of instructional days)}$$
5. Prime instructional time = $1.00 - \frac{(1 \times 2) + 3}{4} \times 100\%$

Student - Teacher Ratio for Core Subjects (each class)

DEFINITION:

General

This fact reports the average student teacher ratio for English language arts, mathematics, science and social studies classes.

Formula

Grades K-5

1. Determine the number of students enrolled at the school on the 45th day of school.
2. Determine the total number of teachers in the school (excluding counselors, librarians, administrators, specialists and teachers of art, music, physical education or special education)
3. Determine the number of self-contained students with disabilities enrolled in the school on 45th day.
4. Determine the total number of teachers of self contained classes at the school.
5. Find the total number of students: #1 + #3
6. Find the student/teacher ratio in "regular" core classes: #1 / #2
7. Find the student/teacher ratio in self-contained classes for the disabled: #3 / #4
8. Find the sum of the student teacher ratios, weighted by the proportion of students: $[(\#1 / \#5) * \#6] + [(\#3 / \#5) * \#7]$

Grades 6-12

1. Determine the unduplicated number of students enrolled in math, English/language arts, science and social studies classes on the 45th Day of school.
2. Determine the number of FTE classroom teachers of English/language arts, math, science and social studies at the school.
3. Determine the number of self-contained students with disabilities enrolled in the school on 45th day.
4. Determine the total number of teachers of self contained classes at the school.
5. Find the total number of students: #1 + #3
6. Find the student/teacher ratio in "regular" core classes: #1 / #2
7. Find the student/teacher ratio in self-contained classes for the disabled: #3 / #4
8. Find the sum of the student teacher ratios, weighted by the proportion of students: $[(\#1 / \#5) * \#6] + [(\#3 / \#5) * \#7]$

District

1. Determine the number of students enrolled in grades K-5 in district on 45th day.
2. Determine the number of students (grades 6-12) enrolled in math, English/language arts, science and social studies classes in district on 45th day.
3. Determine the number of self-contained students with disabilities enrolled in the school district on 45th day.
4. Divide the sum (#3) by the total number of teachers of self contained classes at the school.
5. Divide the total number of students by the total number of teachers.
 $\frac{(1+3) \text{ total number of students}}{(2+4) \text{ total number of teachers}}$

Students who met the Readiness Standard

Note: The State Department of Education is piloting a readiness measure to replace the Cognitive Skills Assessment Battery; therefore, details regarding this indicator are premature.

DEFINITION:

General

The percentage of students at this school meeting the Grade 1 and Grade 2 Readiness Standard during the last completed school year. *NOTE: For 2001, the percentage of students meeting the standard on the Cognitive Skills Assessment Battery (CSAB) only will be reported.*

Formula

Divide total number of students meeting the readiness standards by total number of students taking the assessment at the school/in the district.

PROCEDURES:

Collected by:

State Department of Education, Office of Assessment

Reported by:

State Department of Education

Timeframe

Fall

Students retained

DEFINITION:

General

This indicator reports the percentage of students required to repeat grade levels because of poor grades, low test scores and/or teacher judgement in the last completed school year.

Formula

Grades K-8

School

1. Determine the total number of students classified at the same grade level for two consecutive years (grades K-8).
2. Divide the sum by the total student enrollment (grades K-8) at the school on the 45th day.

District

1. Determine the total number of students classified at the same grade level for consecutive years (grades K-8).
2. Divide the sum by the total student enrollment (grades K-8) at the school on the 45th day.

Grades 9-12

School

1. Determine the total number of students enrolled on 45th day not earning enough units to be classified at the next grade level in the school;
2. Divide the sum by the number of students enrolled in the school on the 45th day.

District

1. Determine the total number of students not earning enough units to be classified at the next grade level in the district;
2. Divide the sum by the number of students enrolled in the district on the 45th day.

Teachers Returning From the Previous School Year

DEFINITION:

General

This indicator provides information on the percentage of classroom teachers returning to the school/district from the previous school year for a three year period.

Formula

School

1. Determine total number of teachers assigned to school in year previous to ratings performance year.
2. Determine number of teachers who returned in the ratings year.
3. Divide step 2 by step 1.
4. Average the result yielded in step 3 for the preceding three year period.

District

Total number of certified teachers assigned to each school in the district during the school year prior to report card distribution.

APPENDIX E

Acknowledgments

The members and staff of the Education Oversight Committee appreciate the dedication of South Carolina educators, parents, and business and community leaders to increasing the levels of student achievement in our state. We are indebted to their work and their belief in the future of our young people.

We particularly thank the Executive Board of the SC Educators for the Practical Use of Research, the Accountability Committee of the SC School Superintendents Association, the Instructional Roundtable, the Educational Policy Center at the University of South Carolina, the technical advisory groups, staff in the State Department of Education, and the thousands of SC educators, parents and private citizens who offered constructive criticisms. We are thankful for their support in developing technically defensible measures.

We also acknowledge the work of the Budget and Control Board's Bureau of Research and Statistics. Dr. Pete Bailey and Mrs. Diana Tester recognized the potential of the "schools similar" project as a means by which we can identify community and school challenges and target assistance and solutions. We also are indebted to Dr. Garrett Mandeville for his contributions to data analysis. Dr. Mandeville is also due many thanks, along with Dr. Pat Burns, Dr. William Brown, Dr. Robert Linn, Dr. Wayne Martin, Dr. John Poggio, Dr. John Segars, and Dr. Jim Watts for the time and effort they devoted to their service on the Technical Advisory Committee on School and District Ratings. We are also grateful to Dr. Janet Rose-Baele and Dr. James Popham for developing the student and teacher surveys. And finally, the advice and support of colleagues who are working with accountability systems in other states has been invaluable. We only hope that the future brings us opportunities to offer them the level of assistance and encouragement they have given us.
